

Allen Brain Observatory 1.1 simultaneous visual-area map session 715093703 · mouse 699733581 · bandwidth 12°

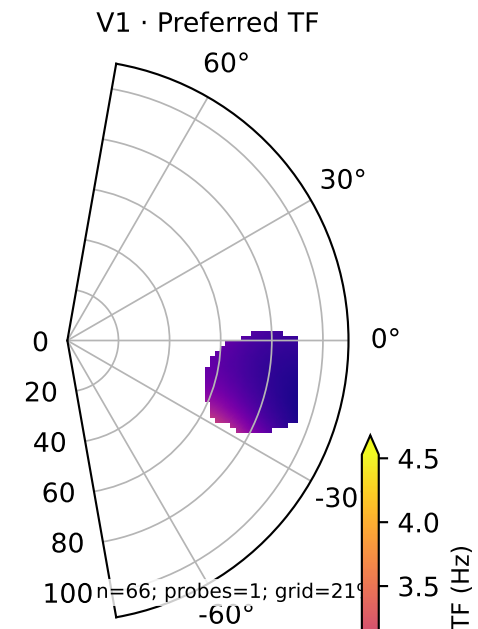

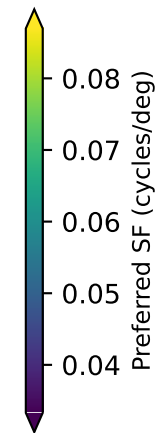

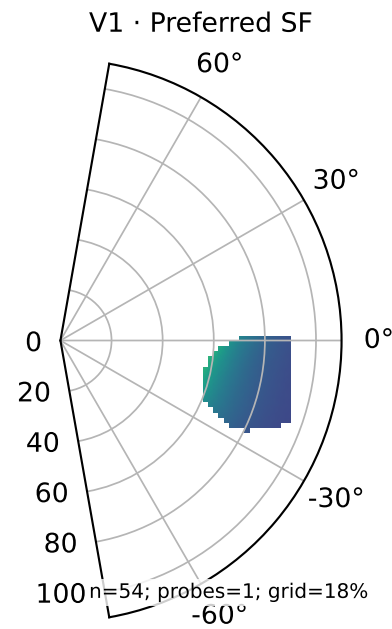

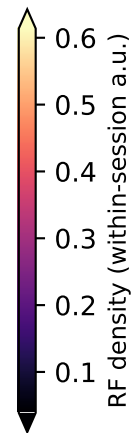

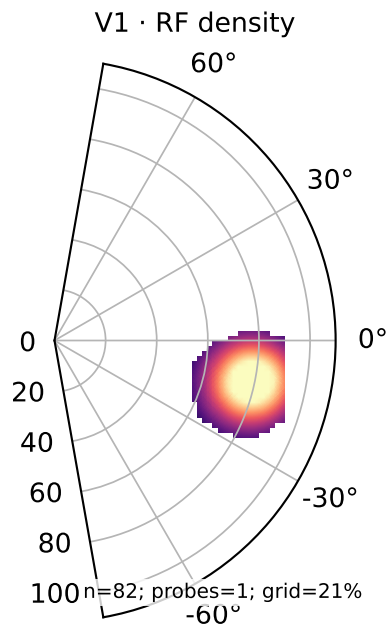

Preferred TF (Hz)

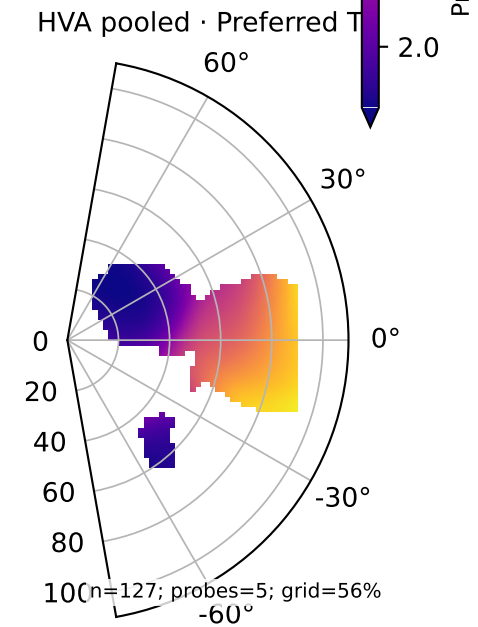

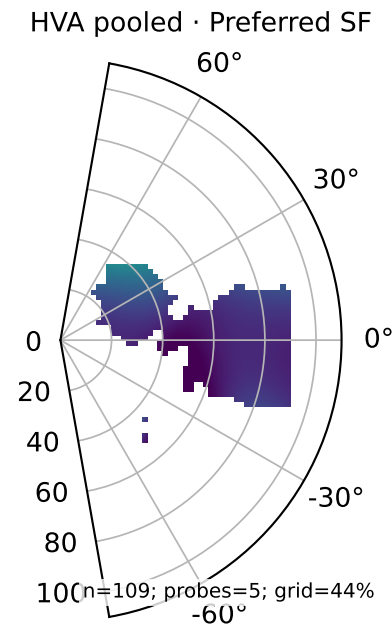

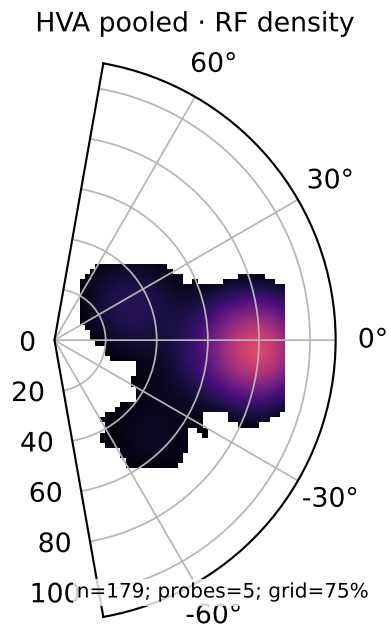

areas: AM+LM+PM+RL

All probes are simultaneous within each stimulus block; RF, static-SF, and drifting-TF blocks are sequential.

Allen Brain Observatory 1.1 simultaneous visual-area map session 719161530 · mouse 703279284 · bandwidth 12°

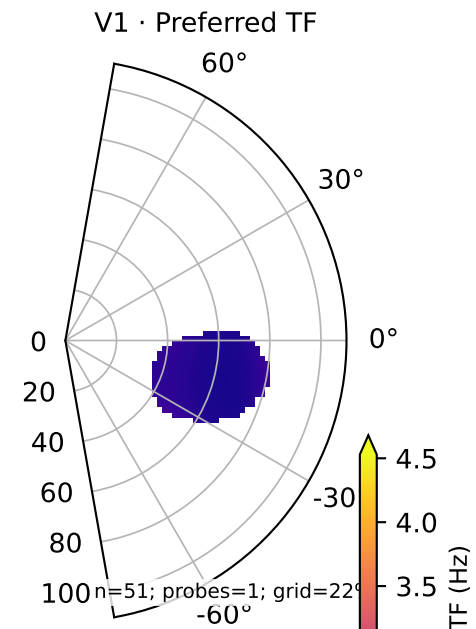

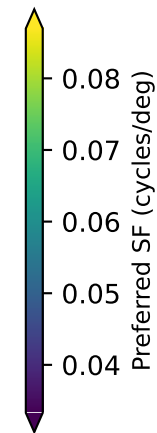

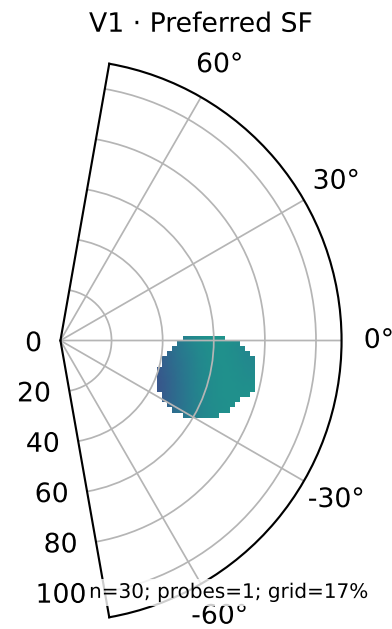

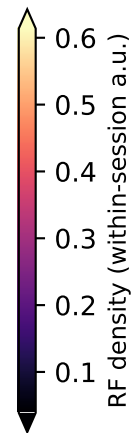

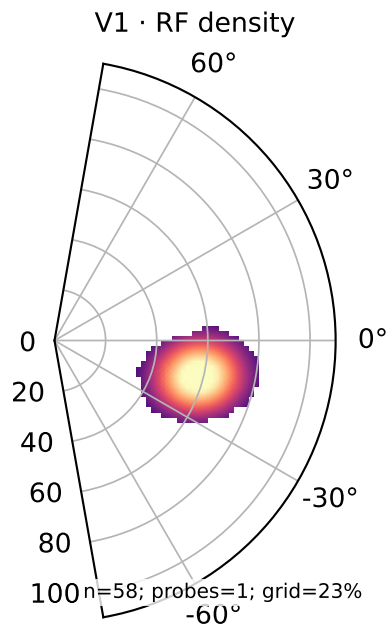

Preferred TF (Hz)

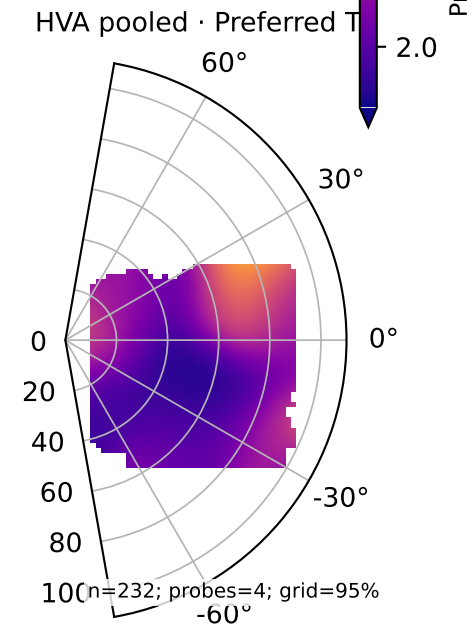

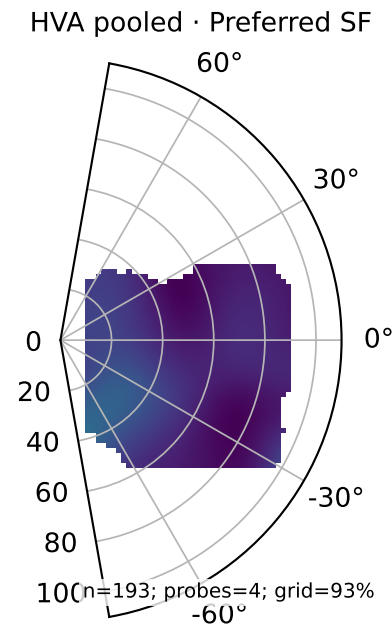

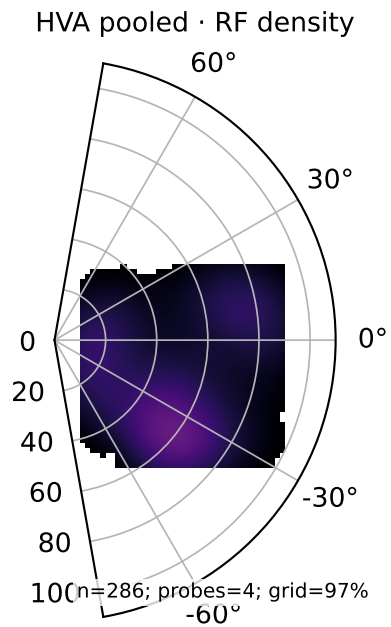

areas: AL+AM+LM+PM+RL

All probes are simultaneous within each stimulus block; RF, static-SF, and drifting-TF blocks are sequential.

Allen Brain Observatory 1.1 simultaneous visual-area map session 721123822 · mouse 707296982 · bandwidth 12°

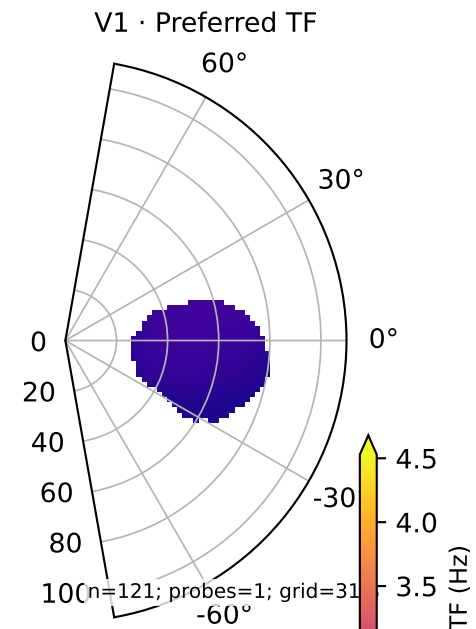

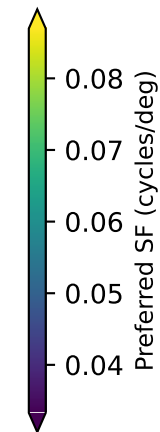

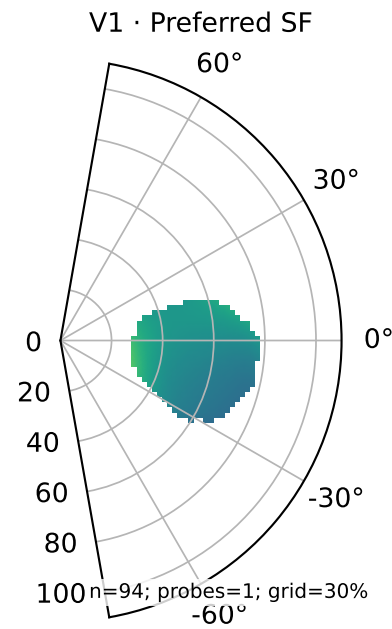

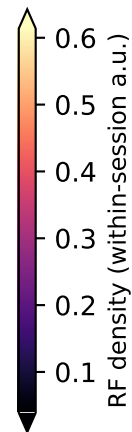

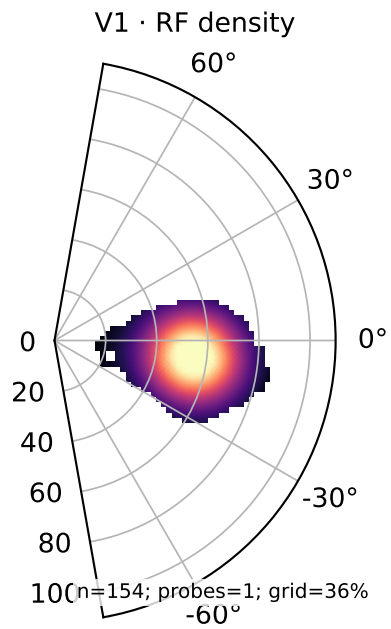

Preferred TF (Hz)

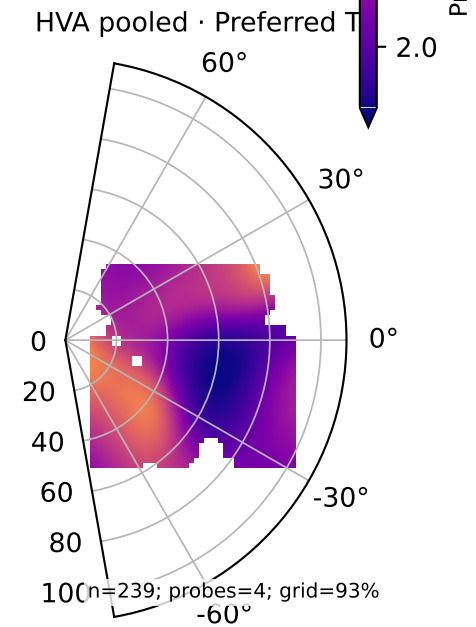

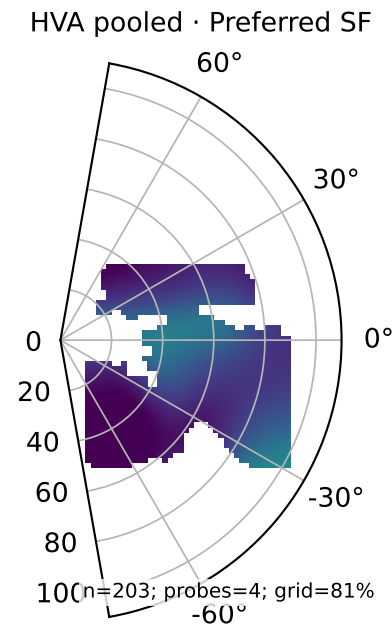

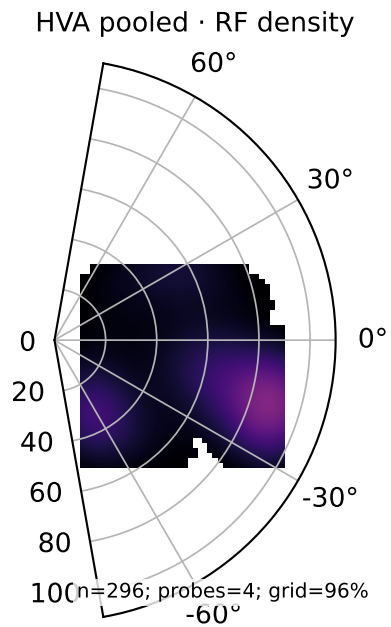

areas: AL+AM+LM+RL

All probes are simultaneous within each stimulus block; RF, static-SF, and drifting-TF blocks are sequential.

Allen Brain Observatory 1.1 simultaneous visual-area map session 732592105 · mouse 717038288 · bandwidth 12°

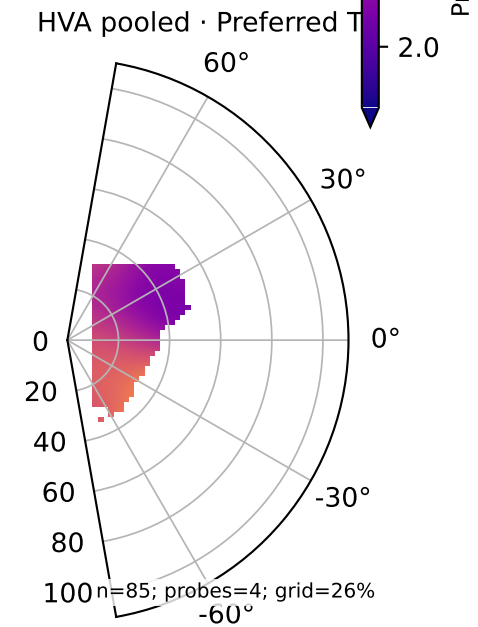

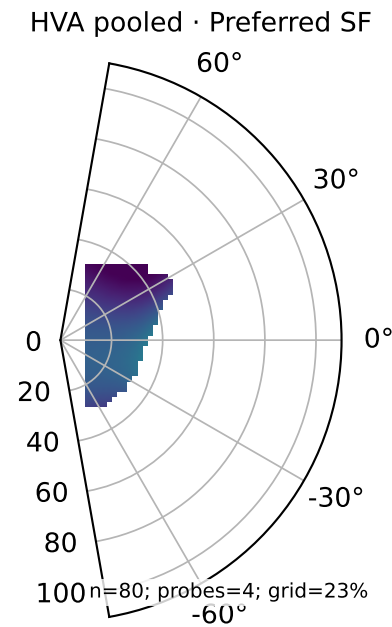

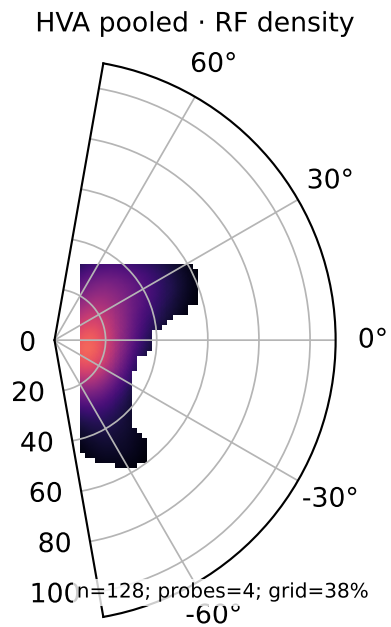

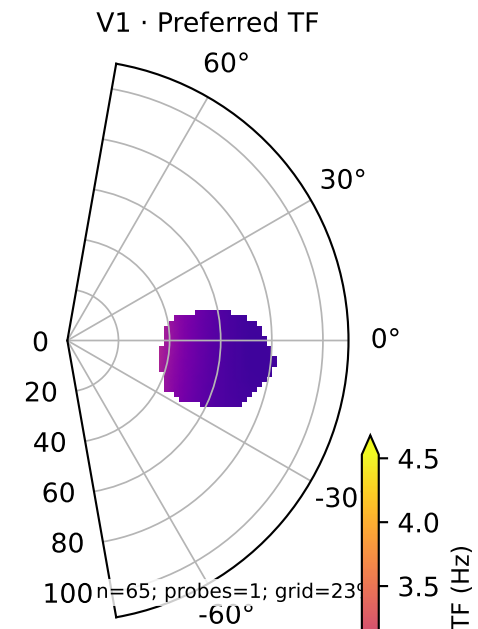

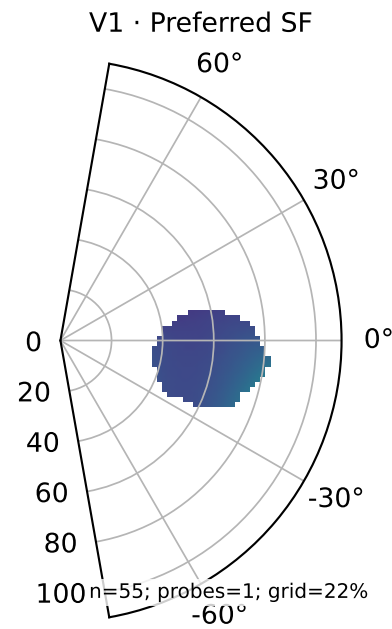

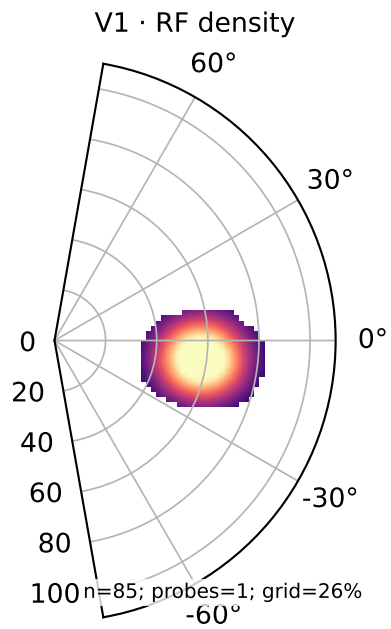

Preferred TF (Hz)

areas: AL+LM+PM+RL

All probes are simultaneous within each stimulus block; RF, static-SF, and drifting-TF blocks are sequential.

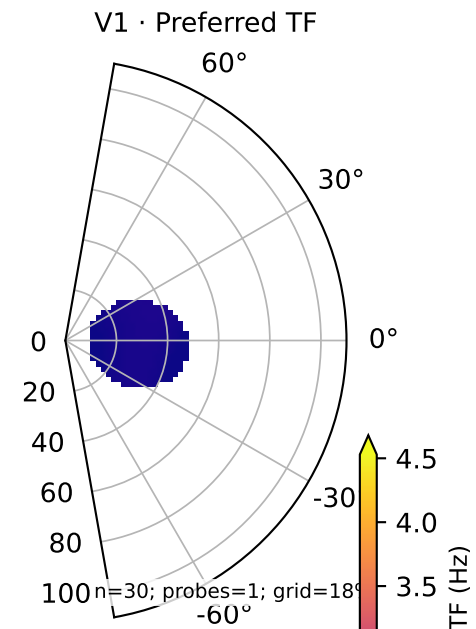

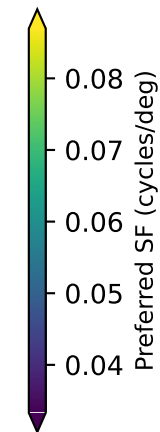

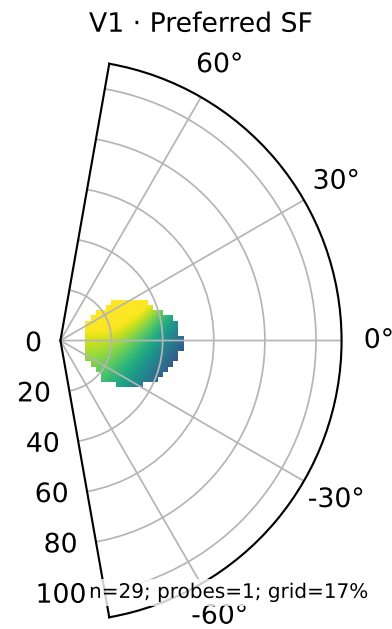

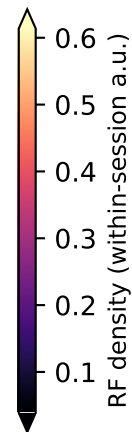

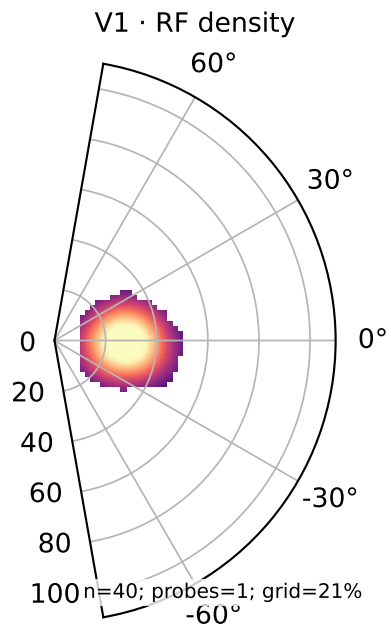

Allen Brain Observatory 1.1 simultaneous visual-area map session 737581020 · mouse 718643567 · bandwidth 12°

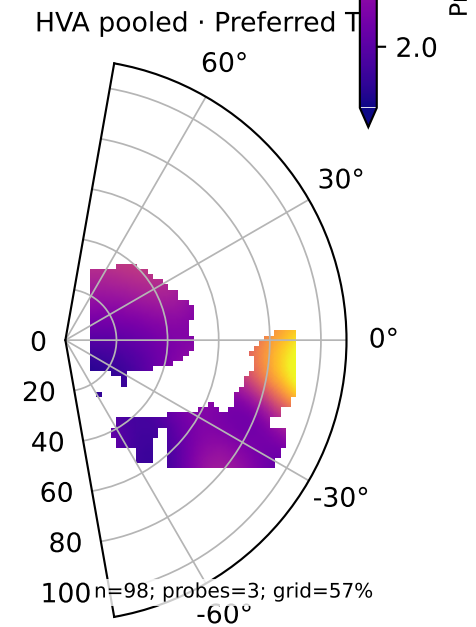

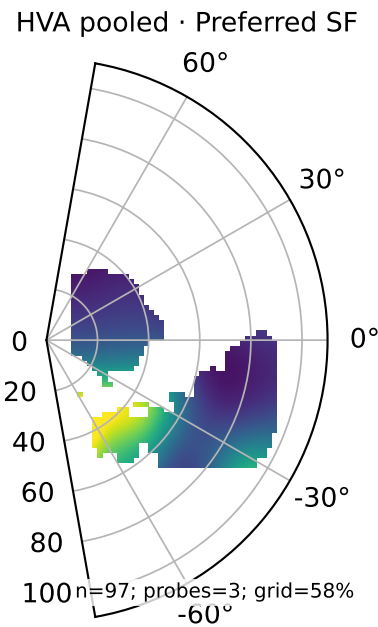

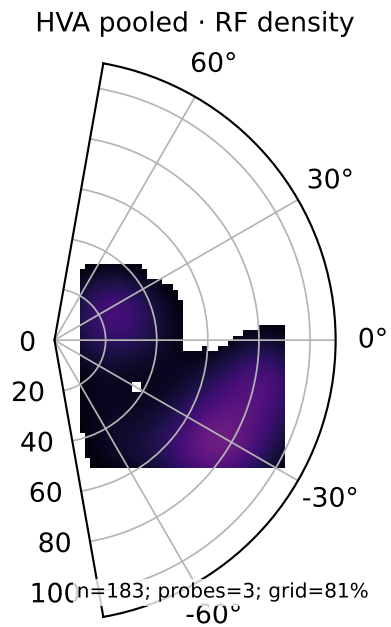

areas: LM+PM+RL

All probes are simultaneous within each stimulus block; RF, static-SF, and drifting-TF blocks are sequential.

Allen Brain Observatory 1.1 simultaneous visual-area map session 739448407 · mouse 716813543 · bandwidth 12°

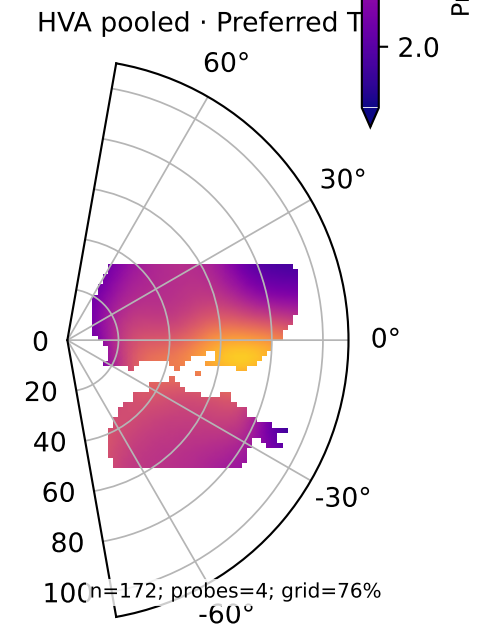

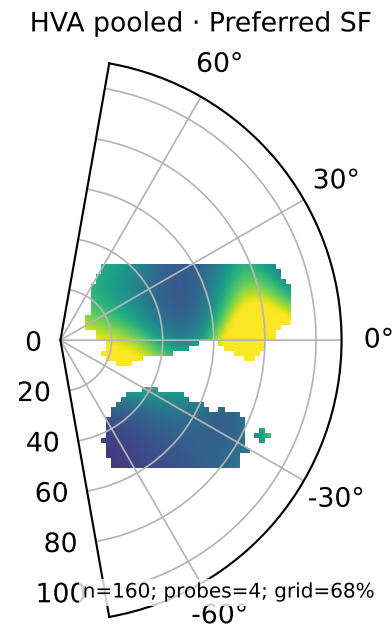

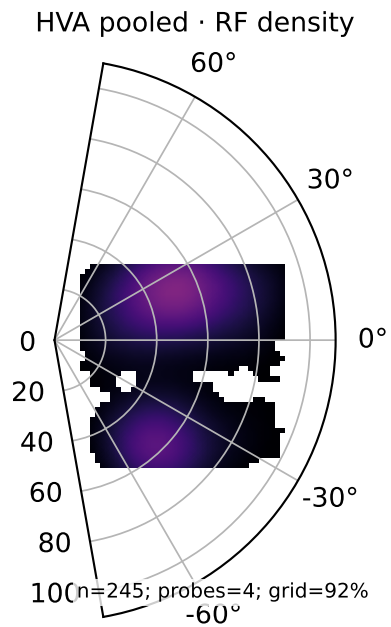

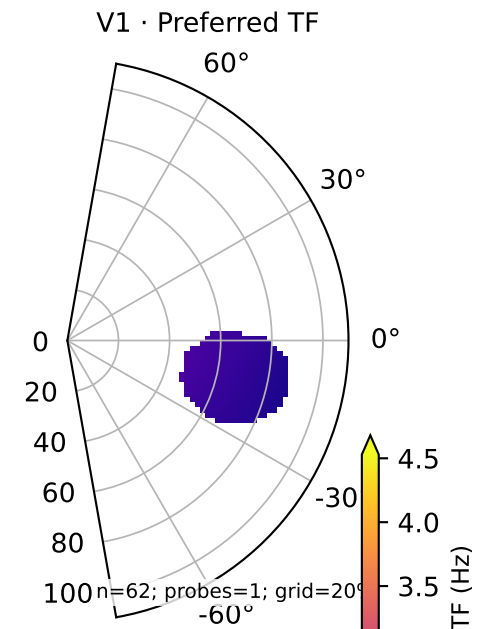

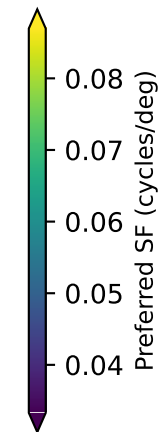

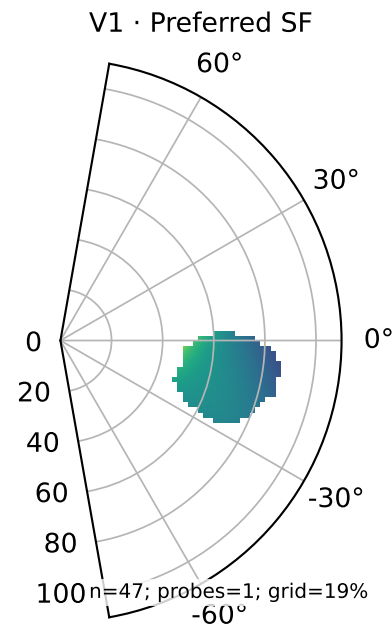

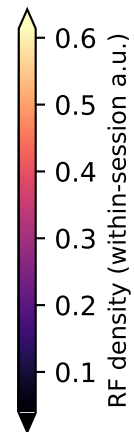

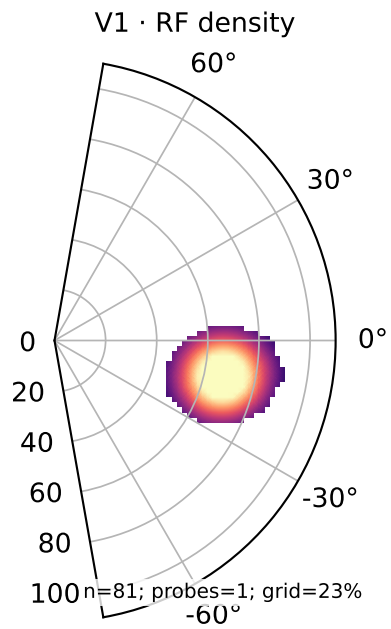

Preferred TF (Hz)

areas: AM+LM+RL

All probes are simultaneous within each stimulus block; RF, static-SF, and drifting-TF blocks are sequential.

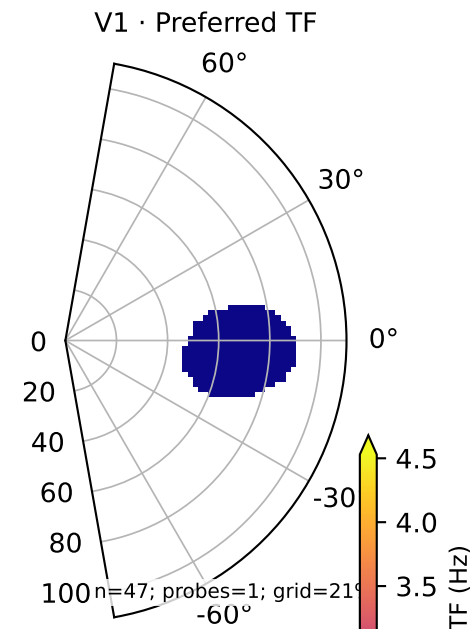

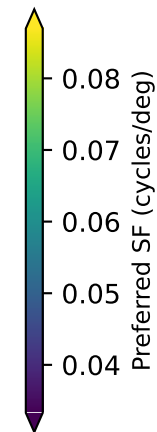

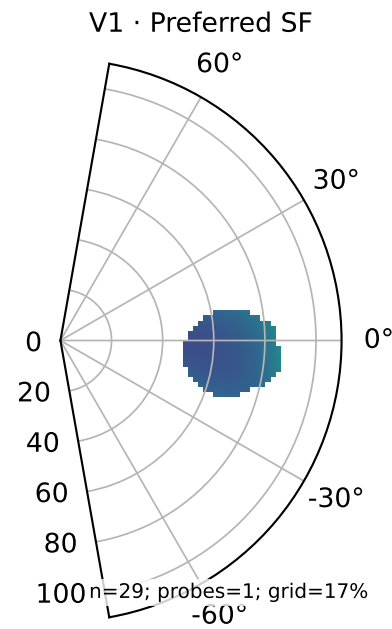

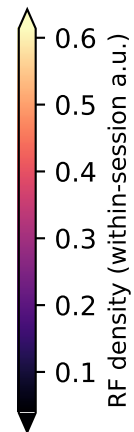

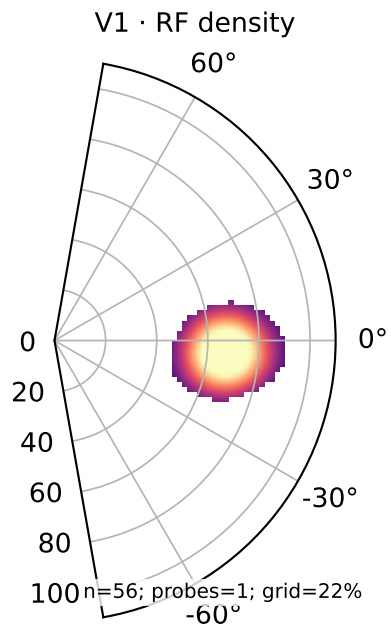

Allen Brain Observatory 1.1 simultaneous visual-area map session 742951821 · mouse 723627604 · bandwidth 12°

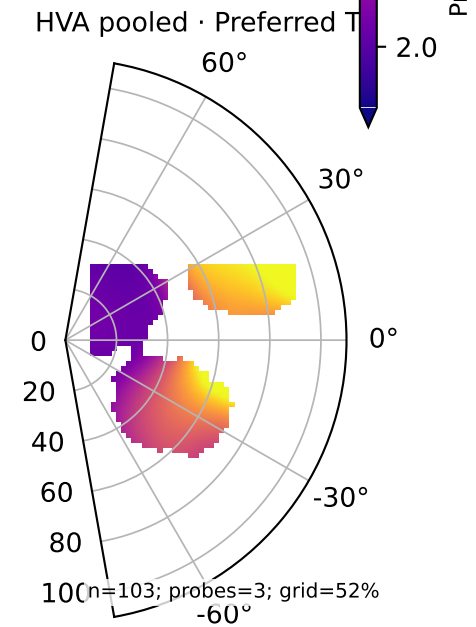

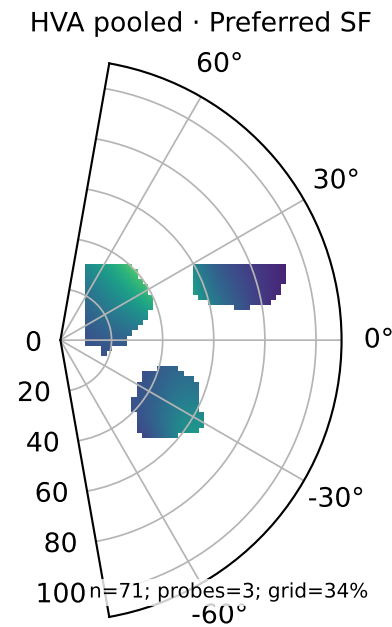

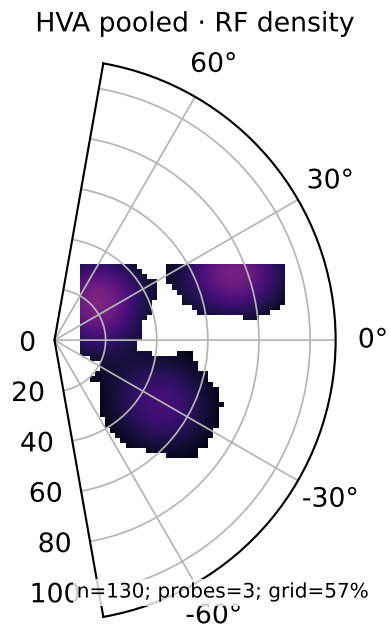

areas: AL+LM+PM+RL

All probes are simultaneous within each stimulus block; RF, static-SF, and drifting-TF blocks are sequential.

Allen Brain Observatory 1.1 simultaneous visual-area map session 744228101 · mouse 719817805 · bandwidth 12°

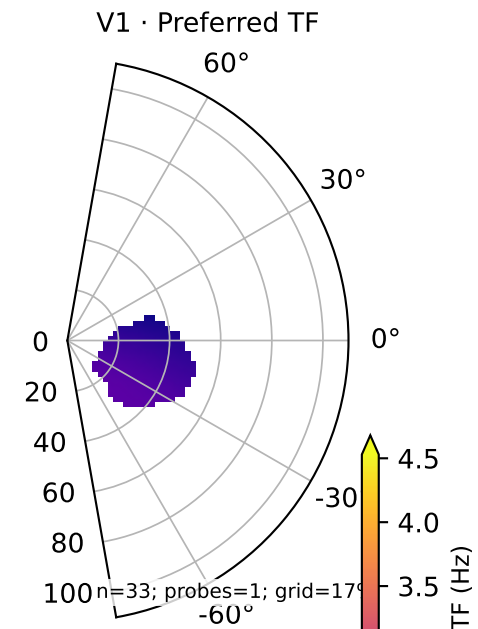

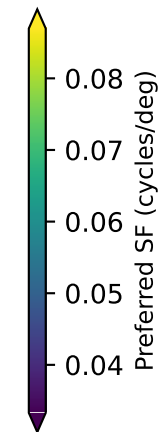

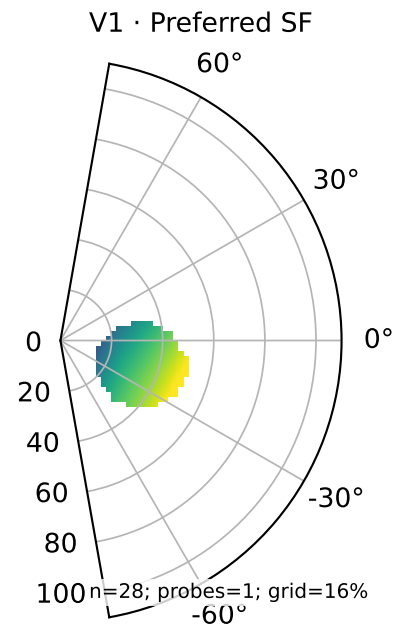

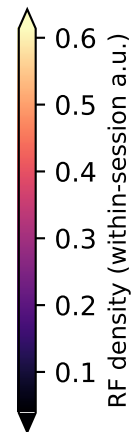

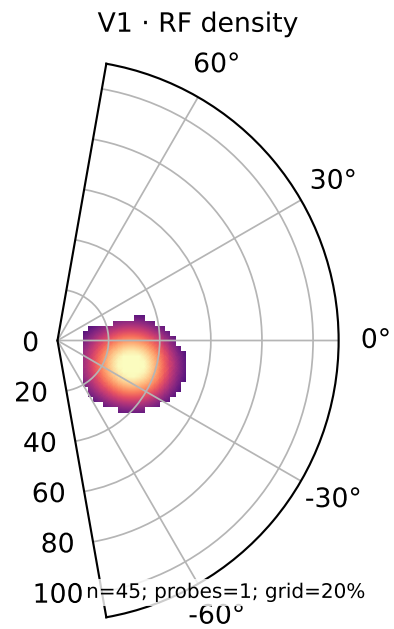

Preferred TF (Hz)

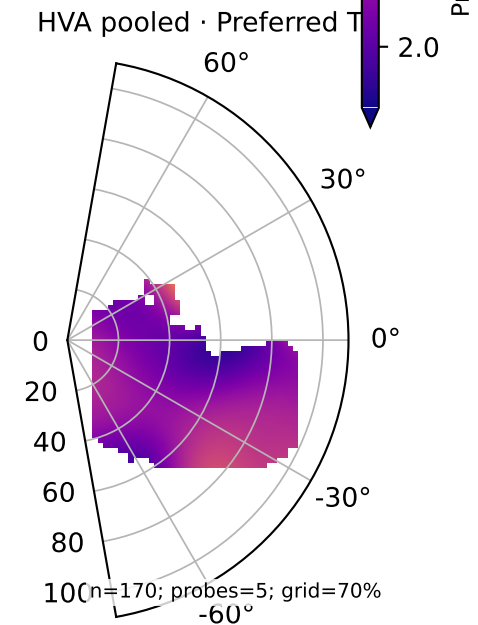

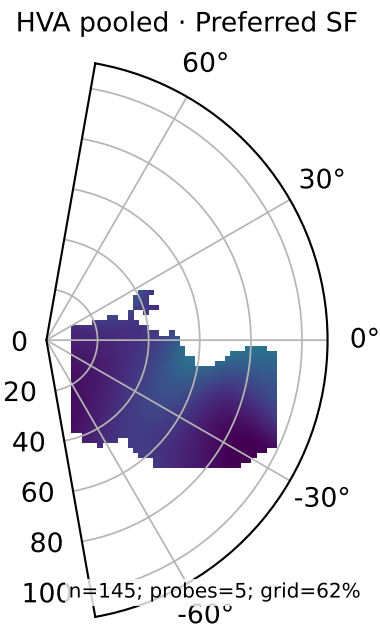

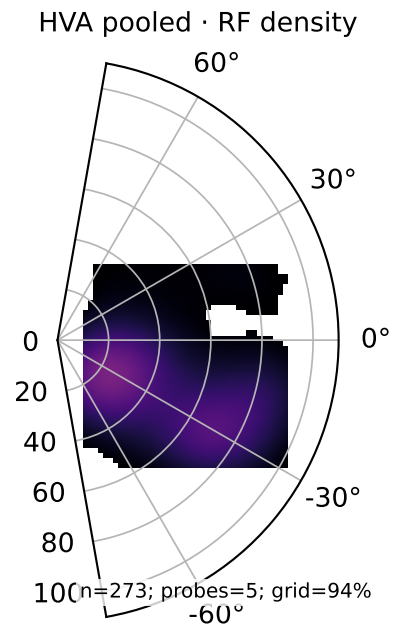

areas: AL+LM+RL

All probes are simultaneous within each stimulus block; RF, static-SF, and drifting-TF blocks are sequential.

Allen Brain Observatory 1.1 simultaneous visual-area map session 746083955 · mouse 726170935 · bandwidth 12°

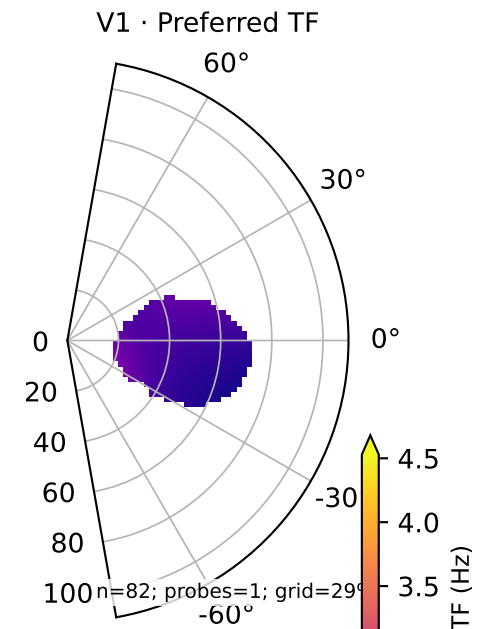

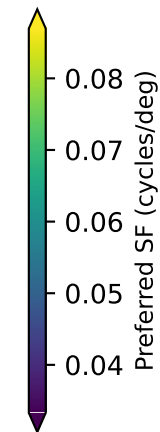

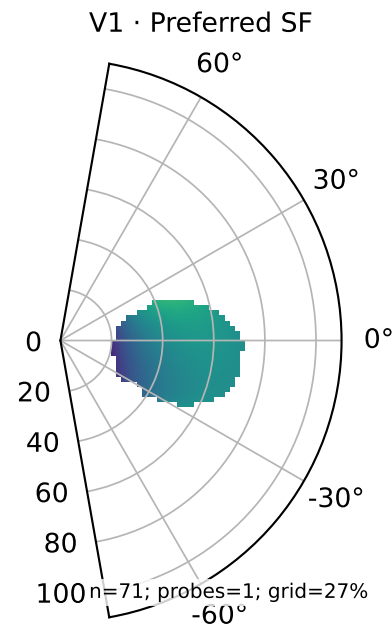

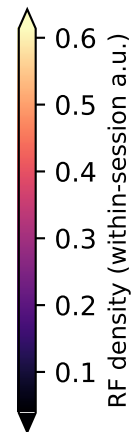

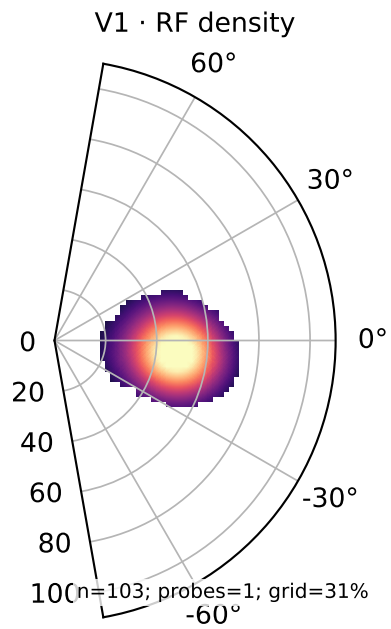

Preferred TF (Hz)

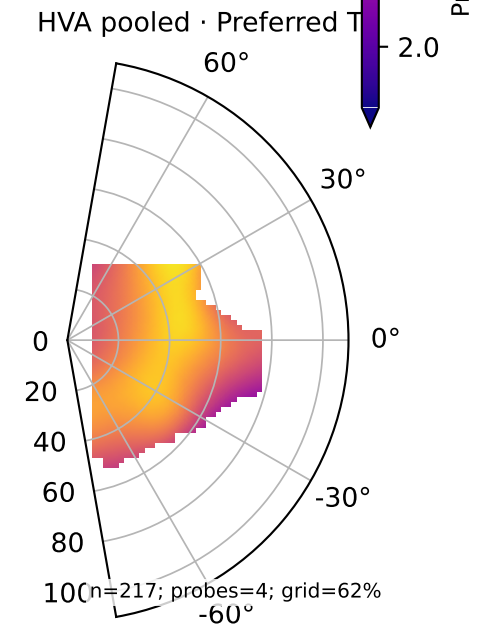

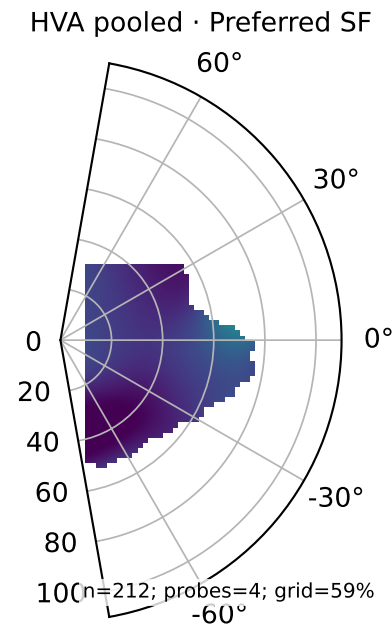

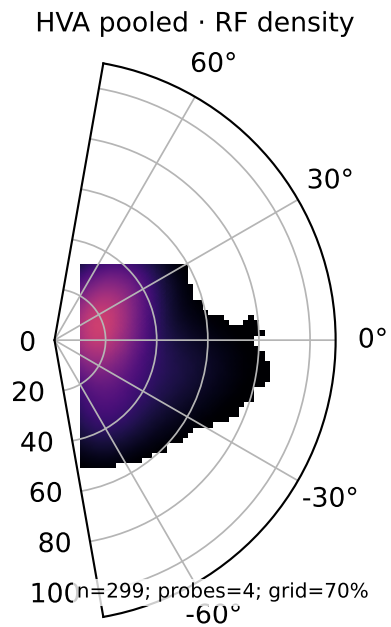

areas: AL+LM+PM+RL

All probes are simultaneous within each stimulus block; RF, static-SF, and drifting-TF blocks are sequential.

Allen Brain Observatory 1.1 simultaneous visual-area map session 750332458 · mouse 726141251 · bandwidth 12°

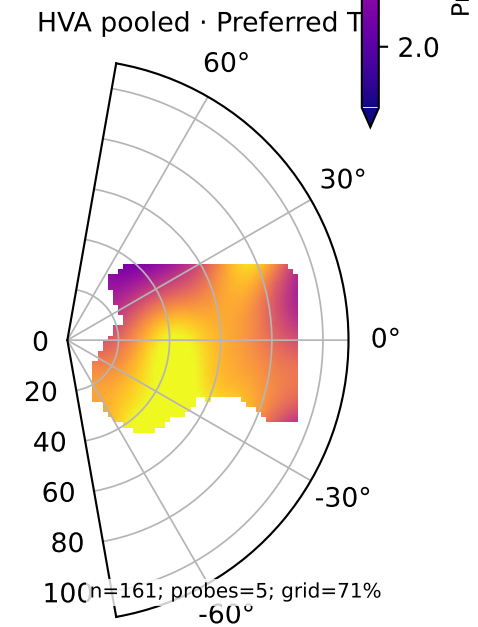

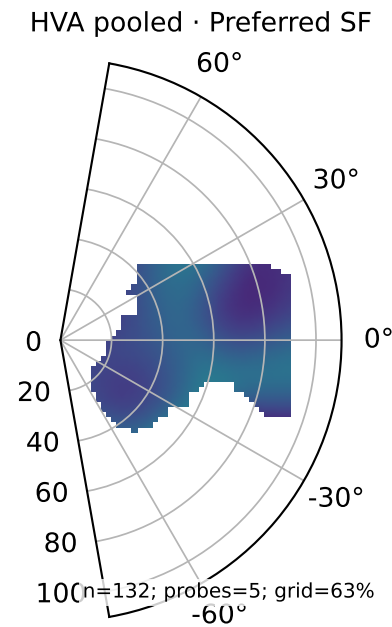

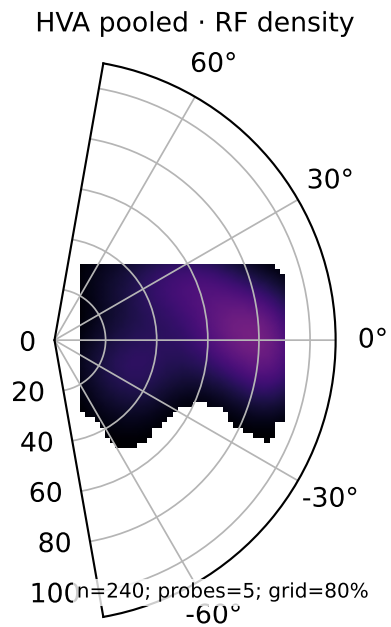

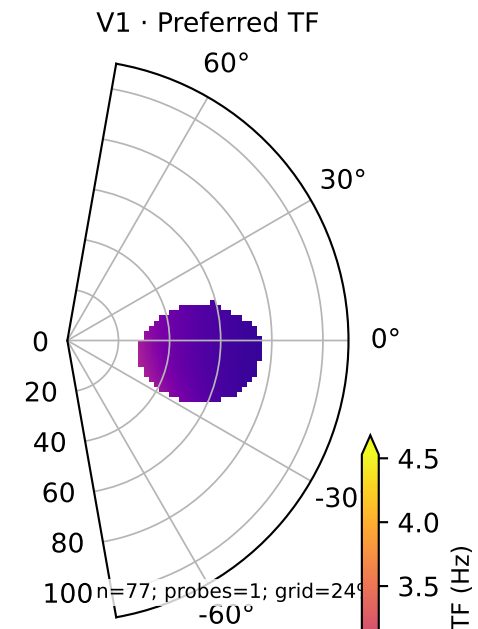

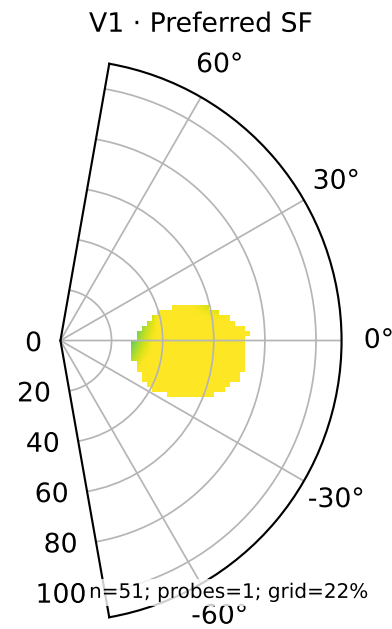

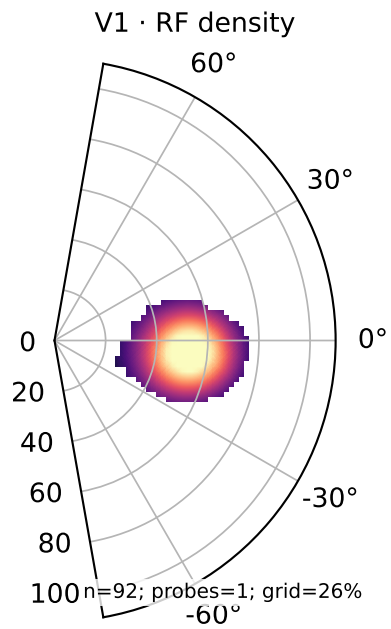

Preferred TF (Hz)

areas: AL+AM+LM+RL

All probes are simultaneous within each stimulus block; RF, static-SF, and drifting-TF blocks are sequential.

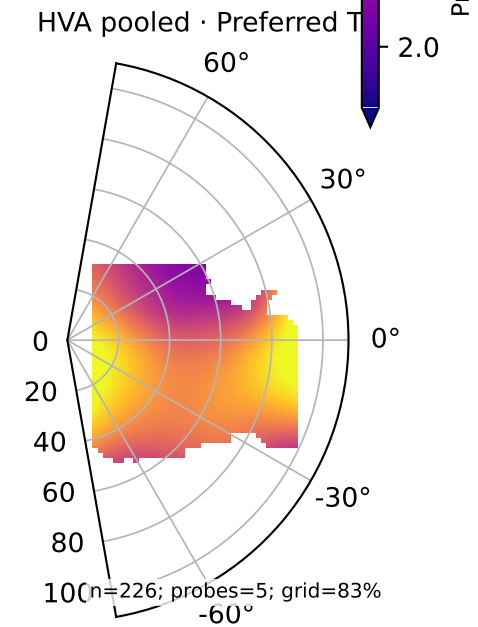

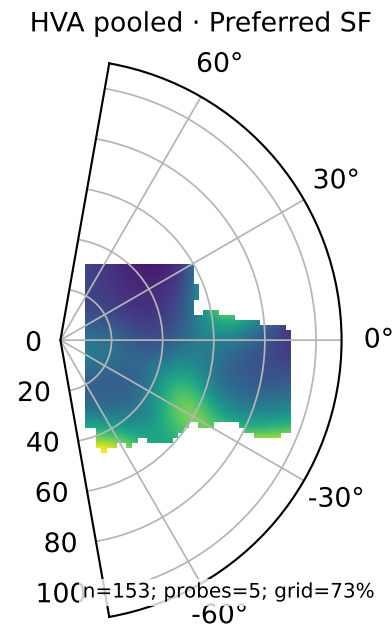

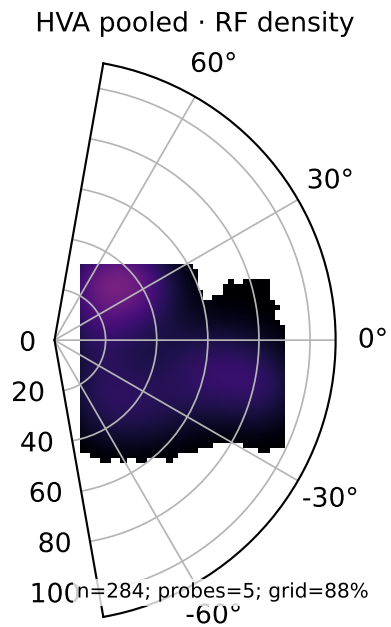

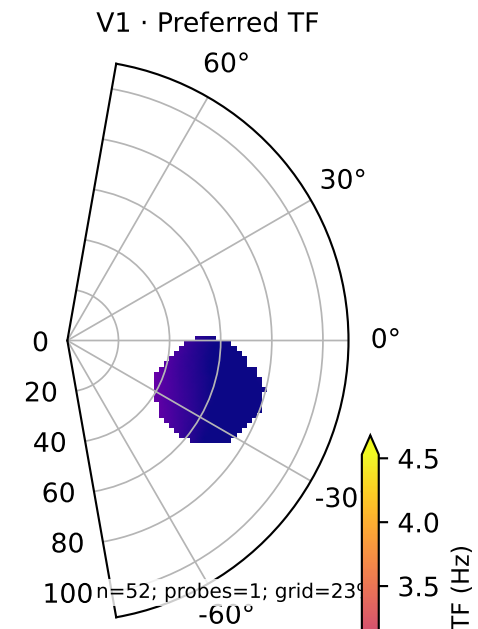

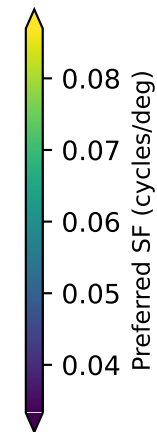

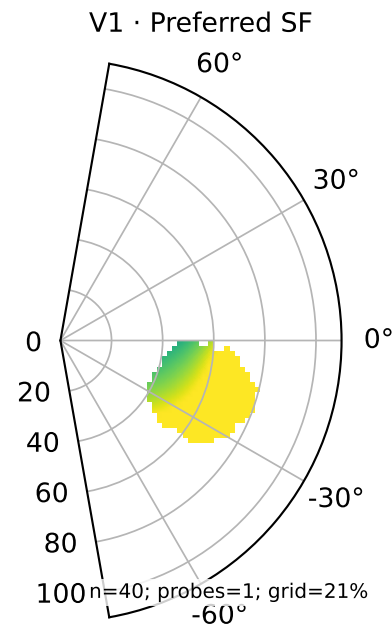

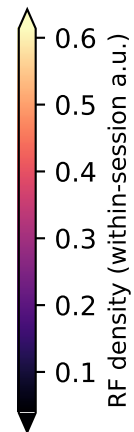

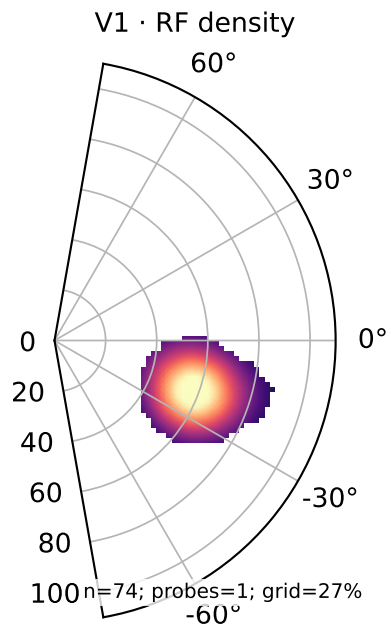

Allen Brain Observatory 1.1 simultaneous visual-area map session 750749662 · mouse 726162197 · bandwidth 12°

areas: AL+AM+LM+PM+RL

All probes are simultaneous within each stimulus block; RF, static-SF, and drifting-TF blocks are sequential.

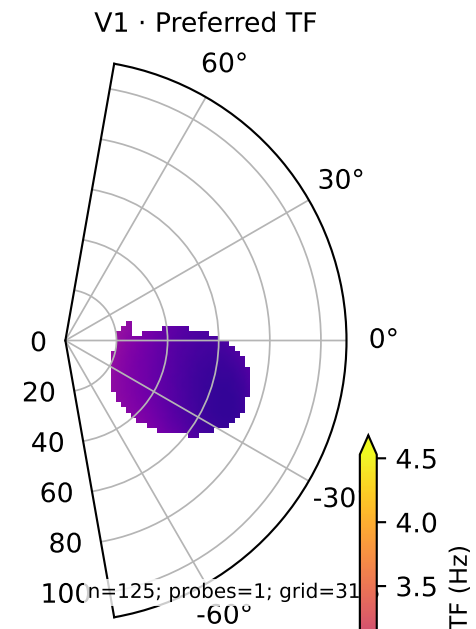

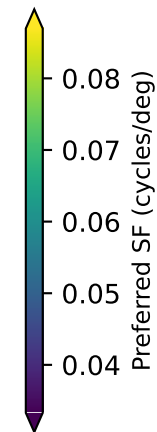

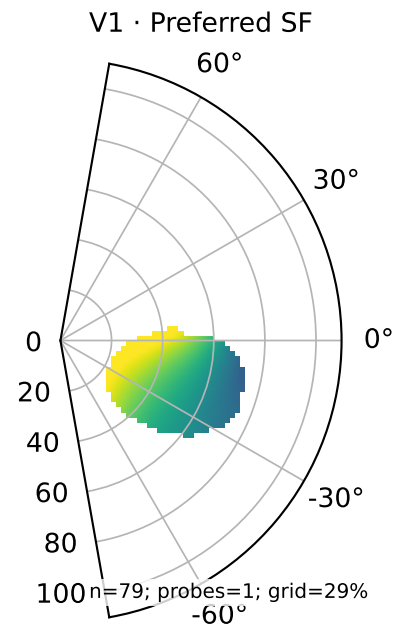

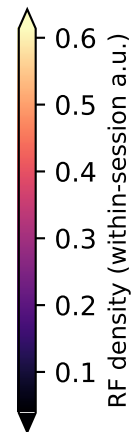

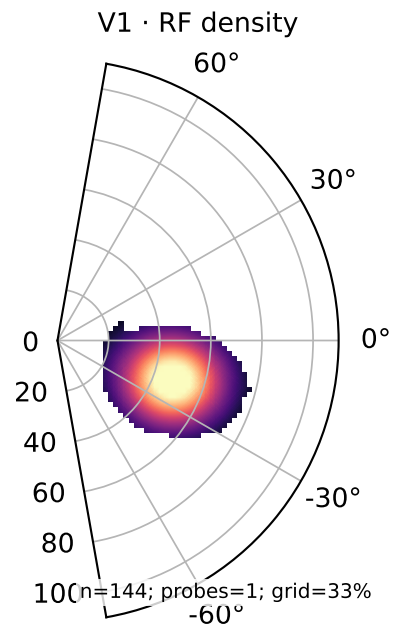

Allen Brain Observatory 1.1 simultaneous visual-area map session 751348571 · mouse 732548380 · bandwidth 12°

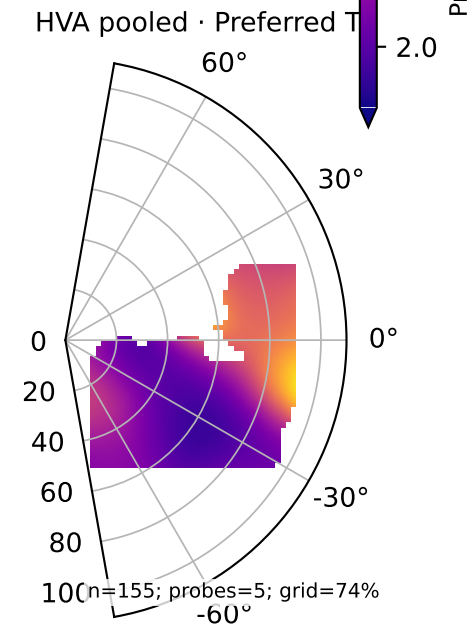

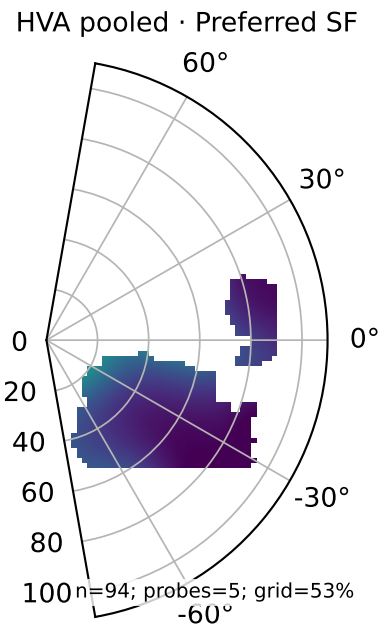

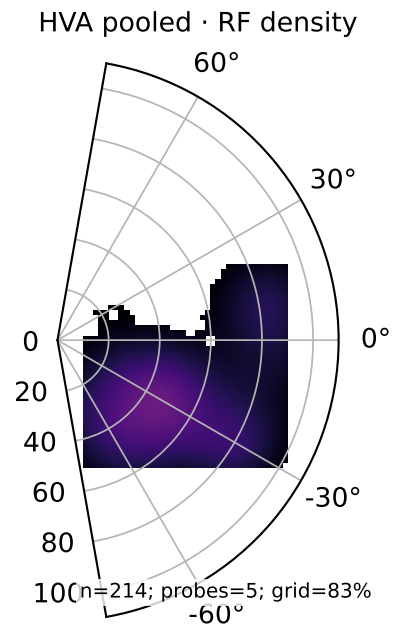

areas: AM+LM+PM+RL

All probes are simultaneous within each stimulus block; RF, static-SF, and drifting-TF blocks are sequential.

Allen Brain Observatory 1.1 simultaneous visual-area map session 754312389 · mouse 719828690 · bandwidth 12°

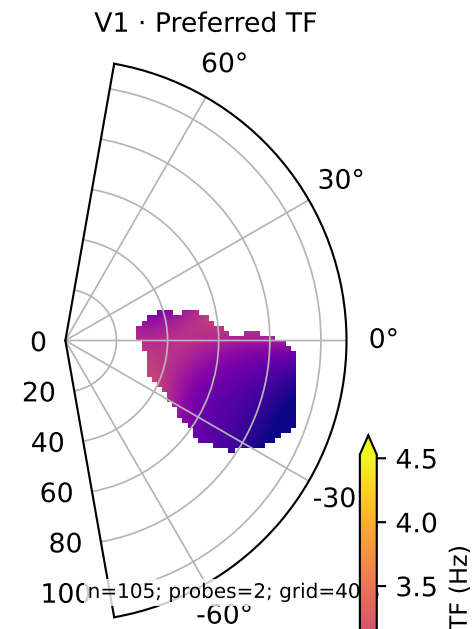

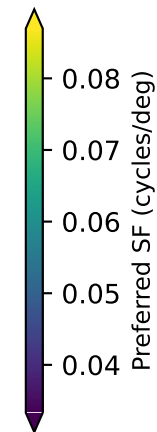

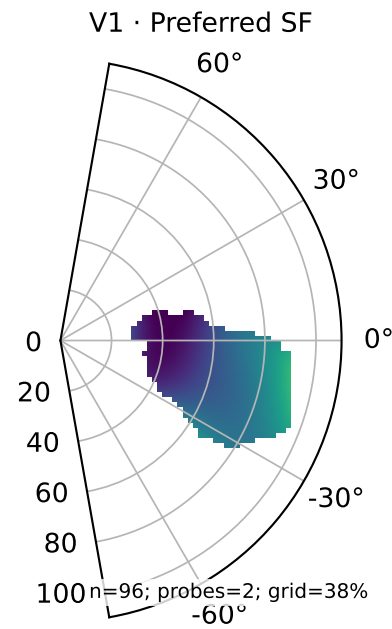

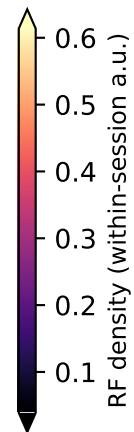

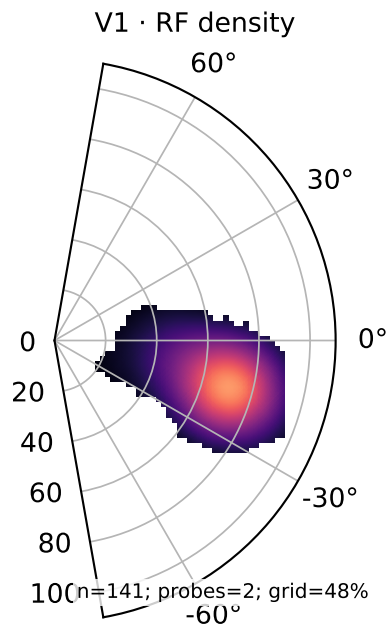

Preferred TF (Hz)

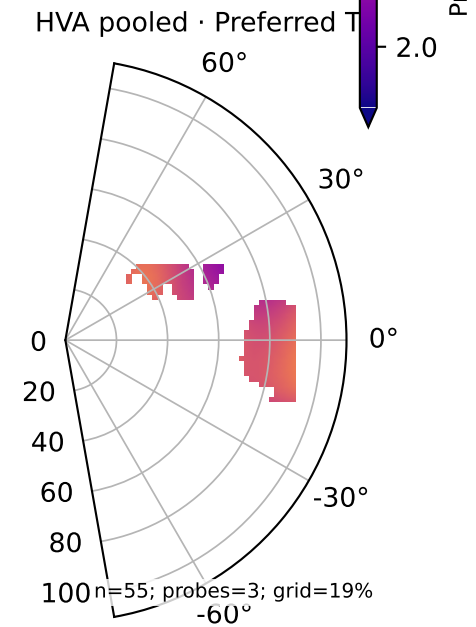

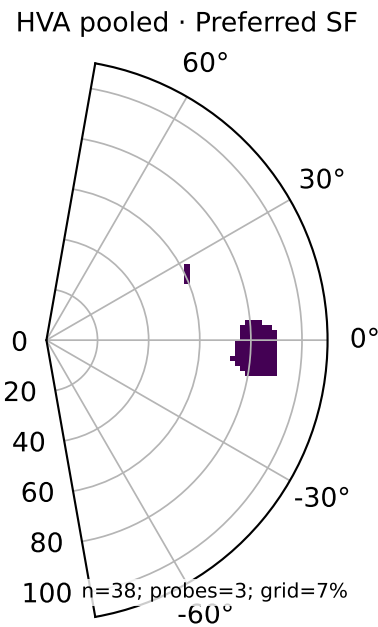

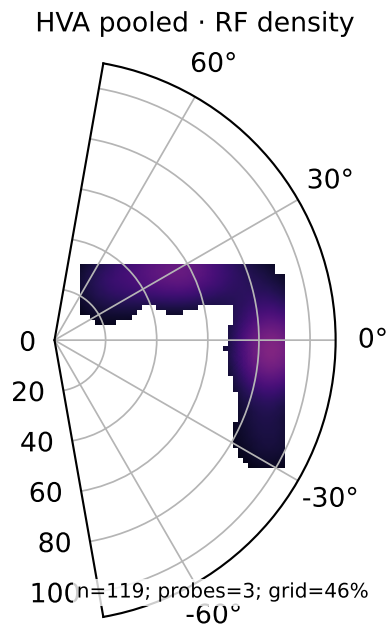

areas: AL+AM+LM+PM+RL

All probes are simultaneous within each stimulus block; RF, static-SF, and drifting-TF blocks are sequential.

Allen Brain Observatory 1.1 simultaneous visual-area map session 754829445 · mouse 726298253 · bandwidth 12°

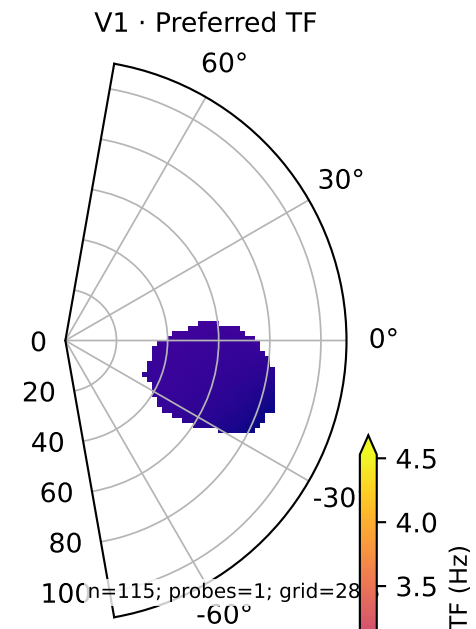

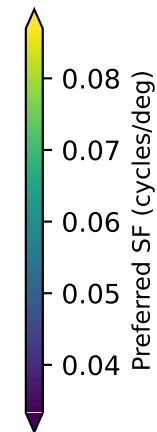

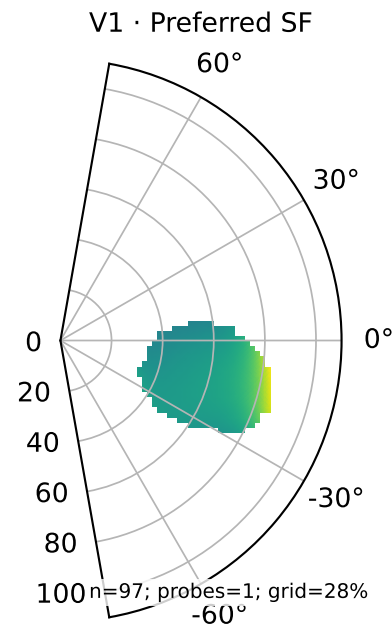

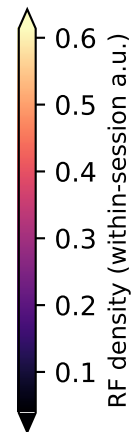

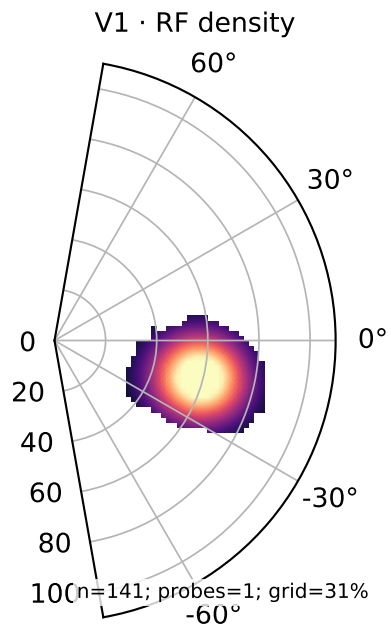

Preferred TF (Hz)

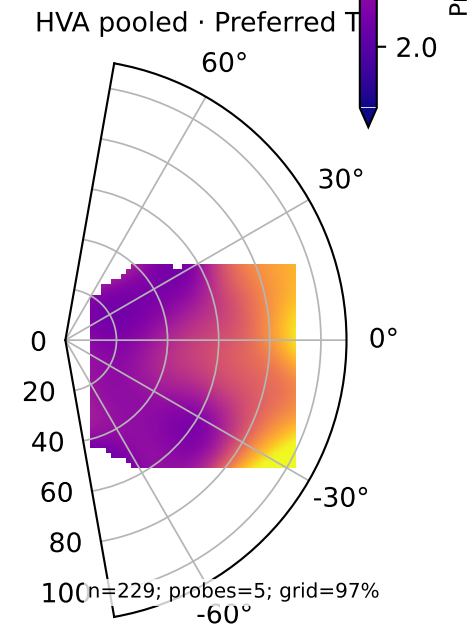

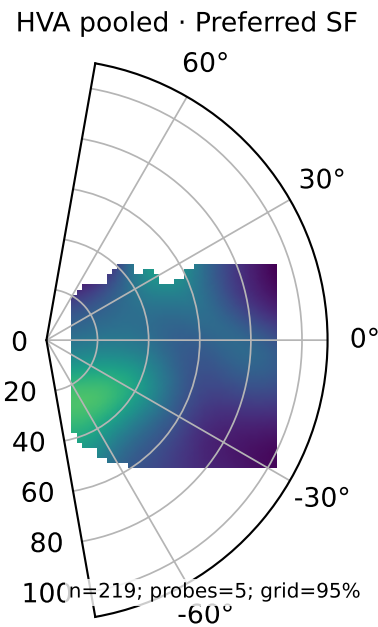

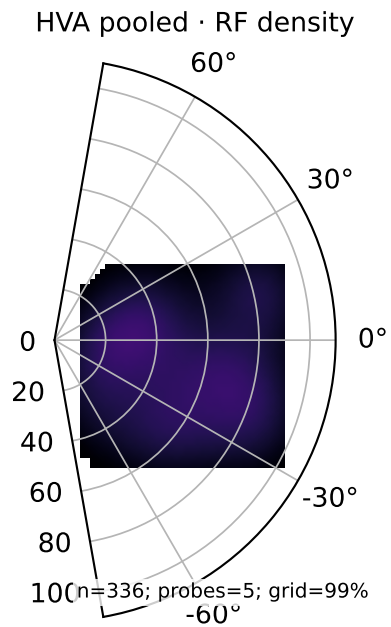

areas: AM+PM+RL

All probes are simultaneous within each stimulus block; RF, static-SF, and drifting-TF blocks are sequential.

Allen Brain Observatory 1.1 simultaneous visual-area map session 755434585 · mouse 730760270 · bandwidth 12°

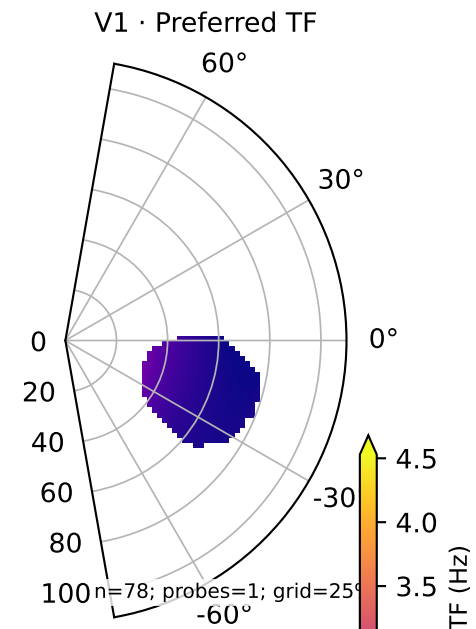

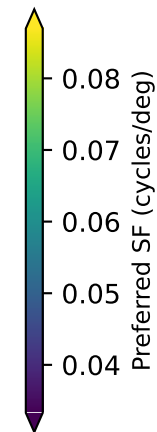

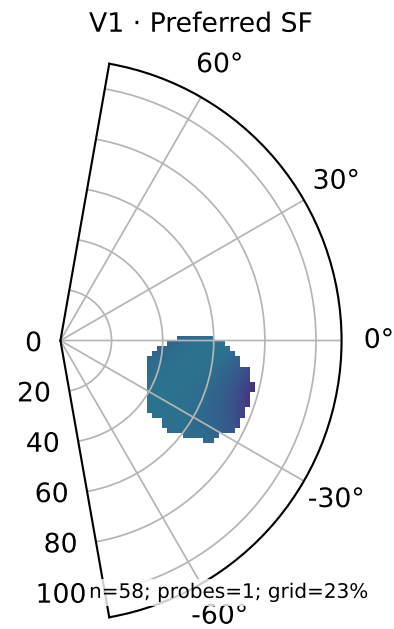

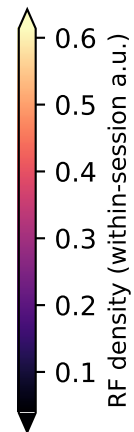

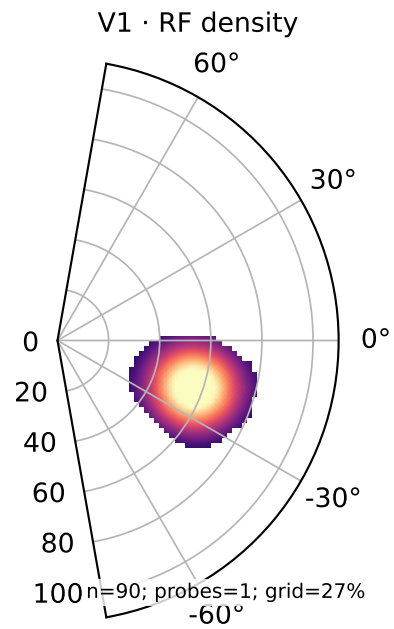

Preferred TF (Hz)

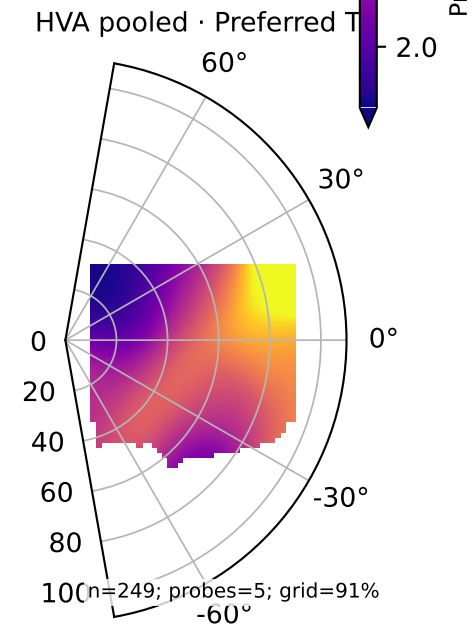

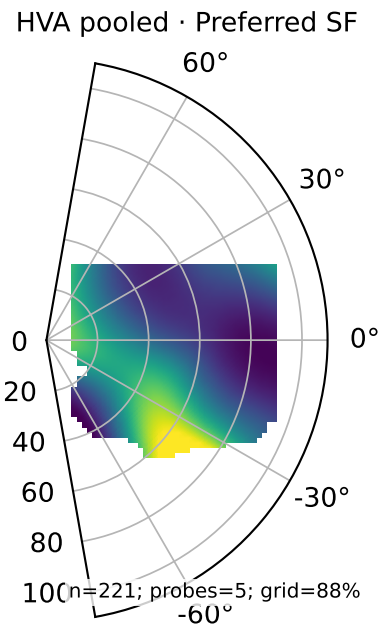

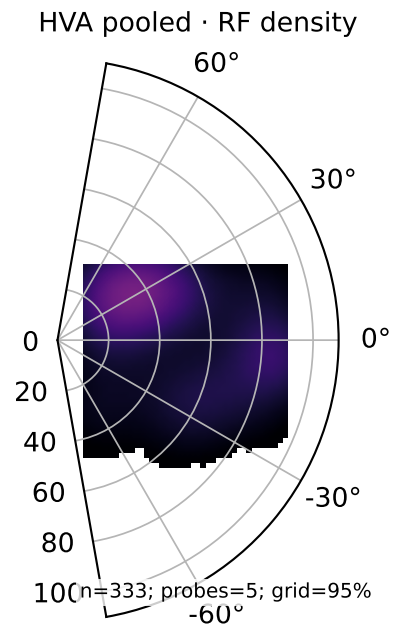

areas: AL+AM+LM+PM+RL

All probes are simultaneous within each stimulus block; RF, static-SF, and drifting-TF blocks are sequential.

Allen Brain Observatory 1.1 simultaneous visual-area map session 756029989 · mouse 734865738 · bandwidth 12°

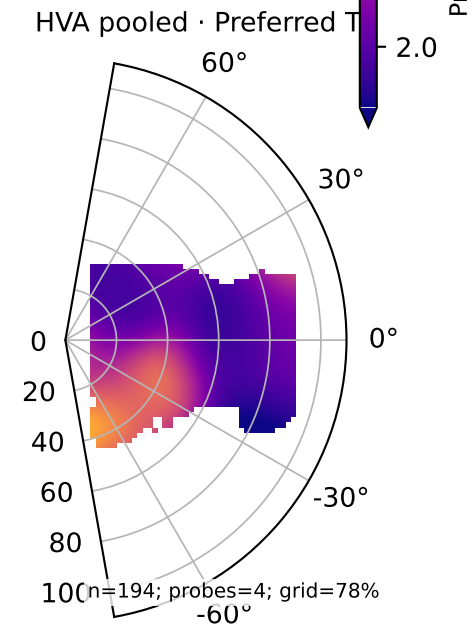

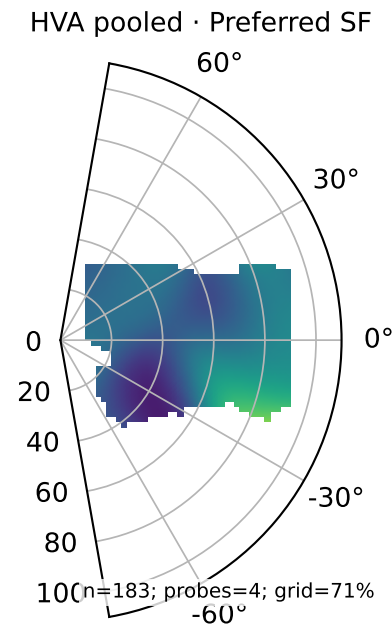

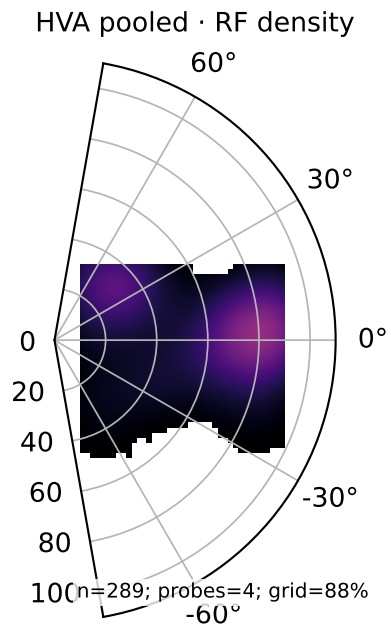

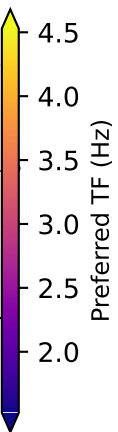

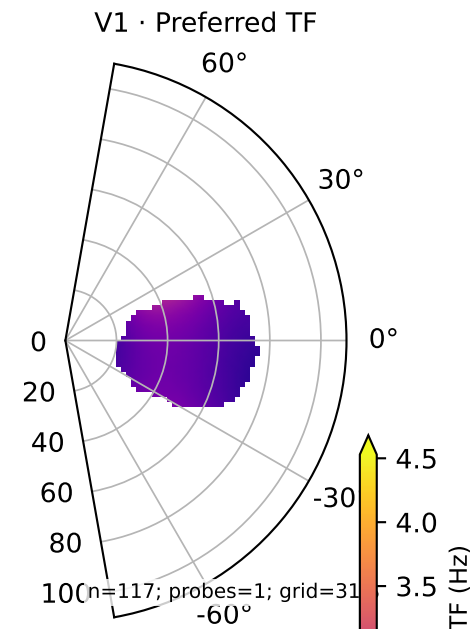

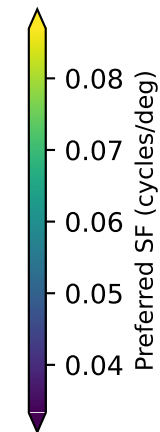

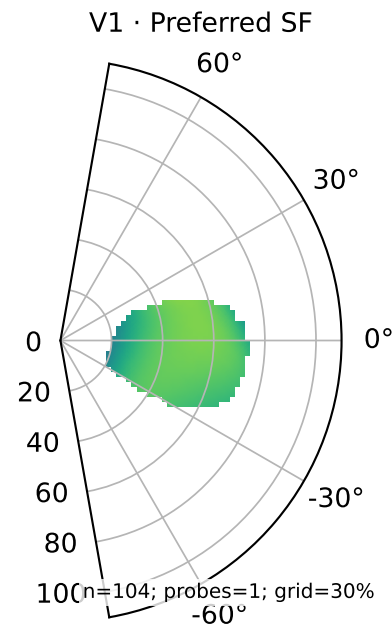

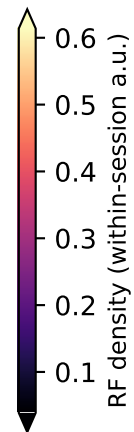

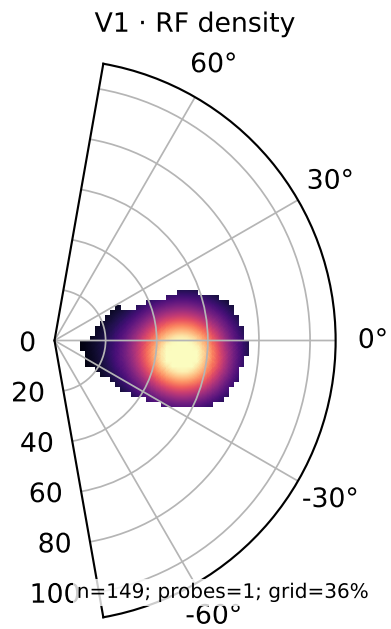

Preferred TF (Hz)

areas: AL+AM+LM+PM+RL

All probes are simultaneous within each stimulus block; RF, static-SF, and drifting-TF blocks are sequential.

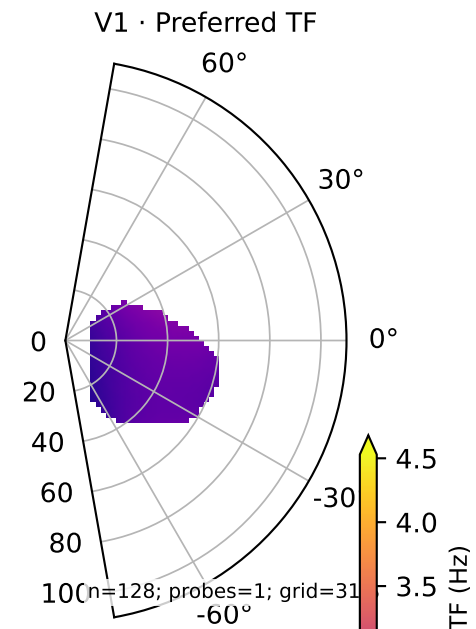

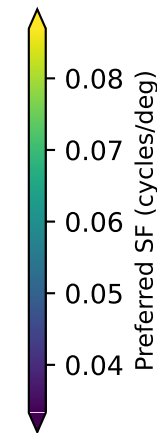

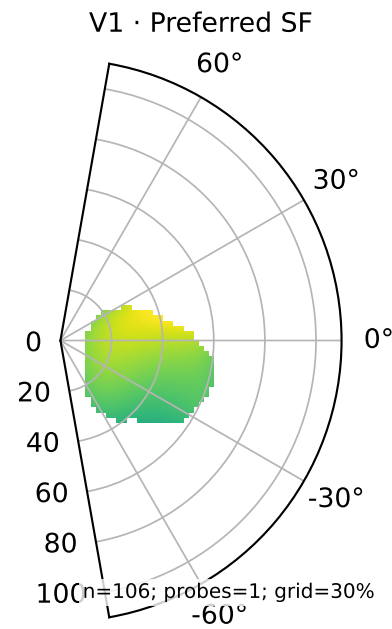

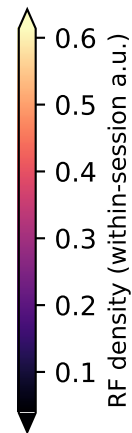

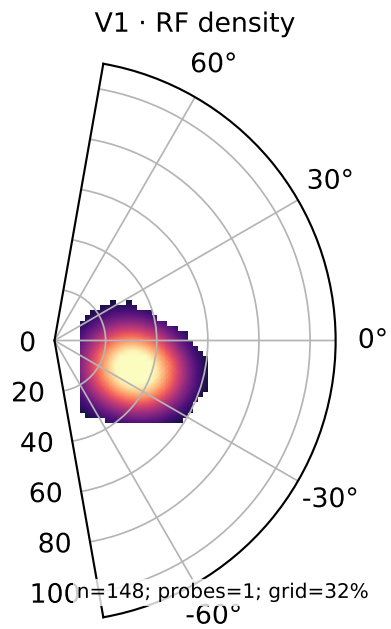

Allen Brain Observatory 1.1 simultaneous visual-area map session 757216464 · mouse 733457989 · bandwidth 12°

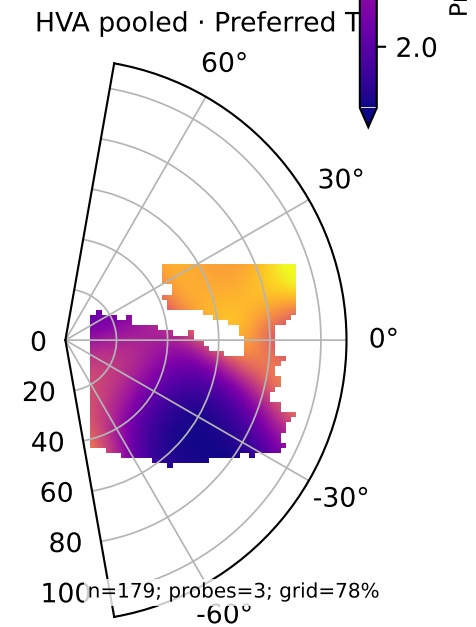

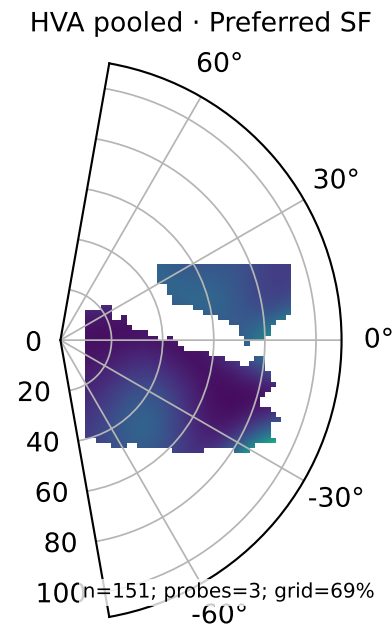

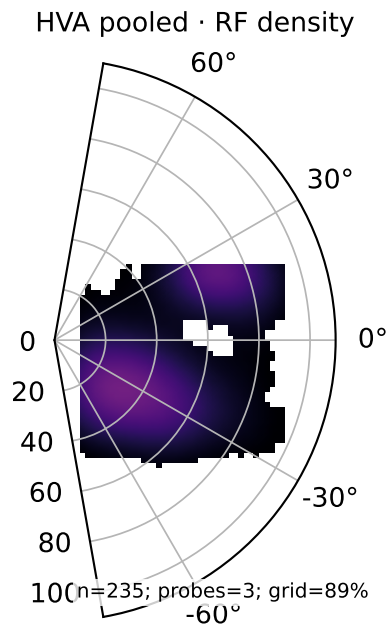

areas: AL+AM+LM+RL

All probes are simultaneous within each stimulus block; RF, static-SF, and drifting-TF blocks are sequential.

Allen Brain Observatory 1.1 simultaneous visual-area map session 757970808 · mouse 730756780 · bandwidth 12°

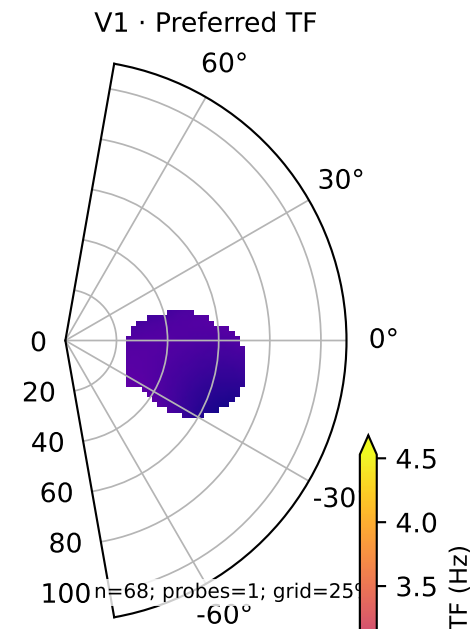

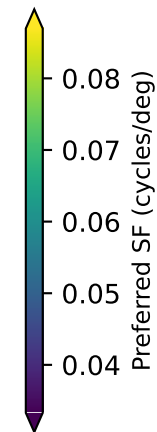

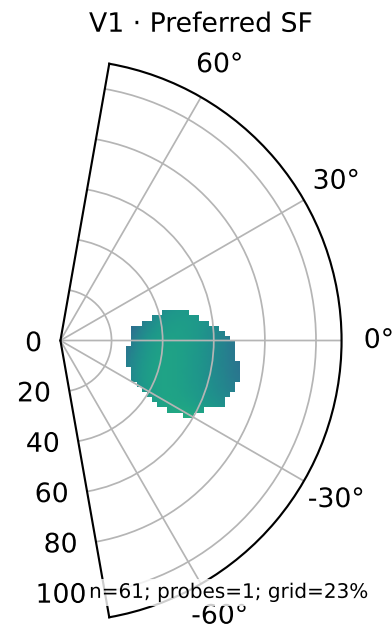

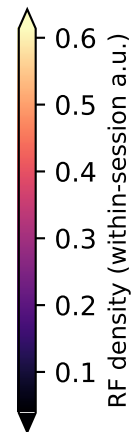

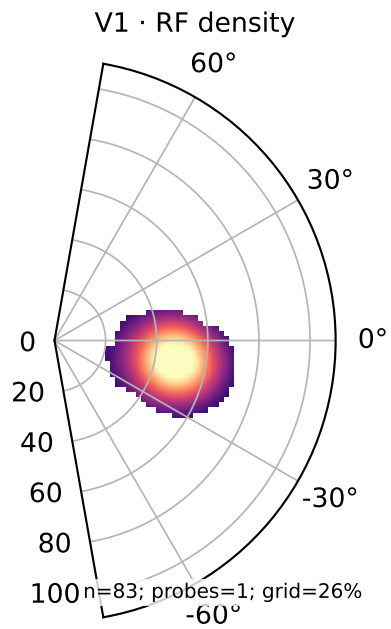

Preferred TF (Hz)

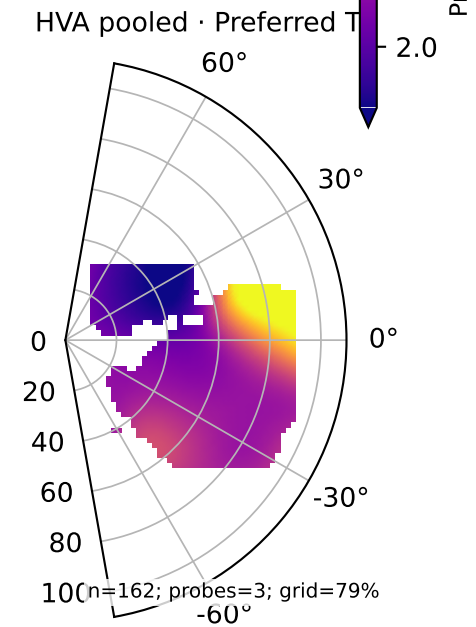

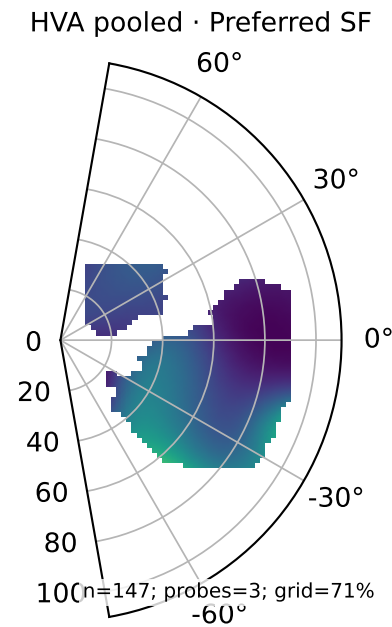

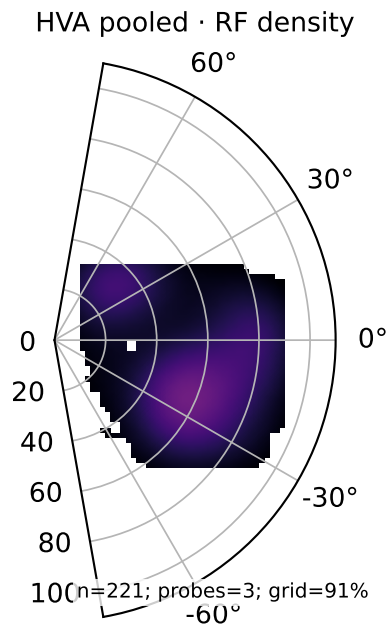

areas: AL+AM+RL

All probes are simultaneous within each stimulus block; RF, static-SF, and drifting-TF blocks are sequential.

Allen Brain Observatory 1.1 simultaneous visual-area map session 758798717 · mouse 735109609 · bandwidth 12°

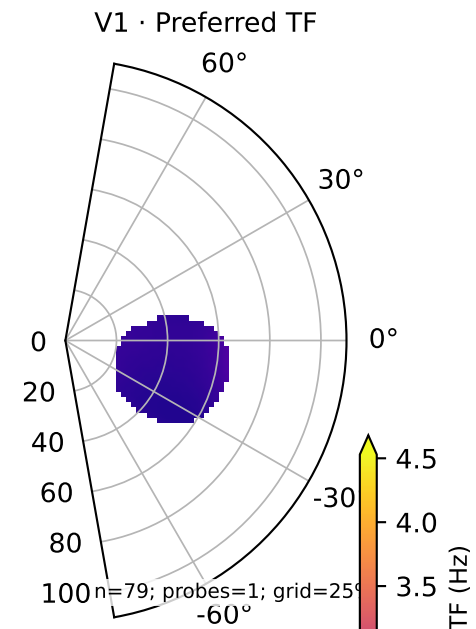

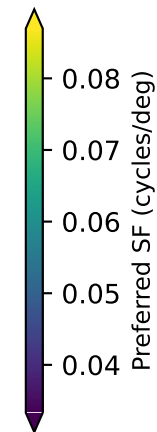

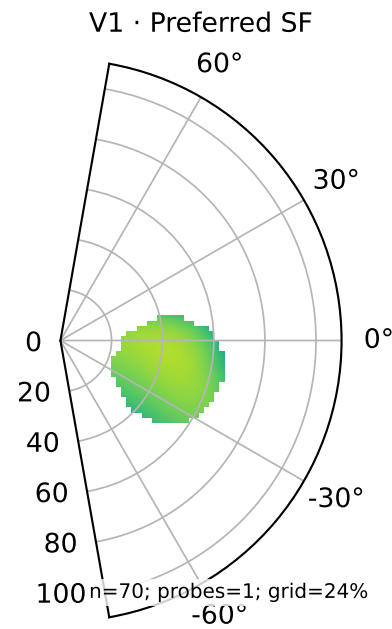

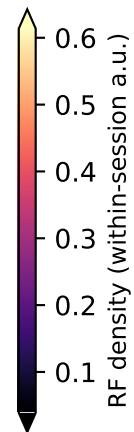

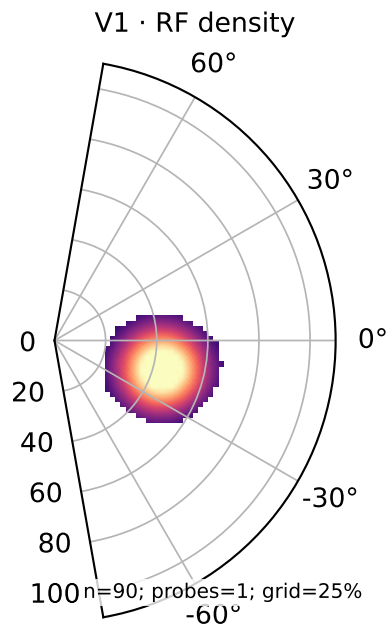

Preferred TF (Hz)

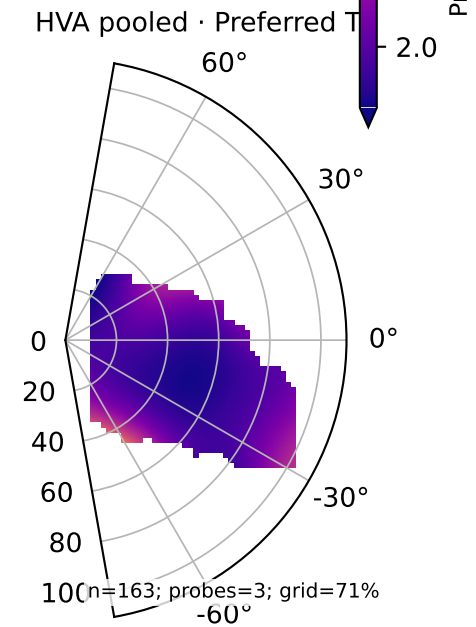

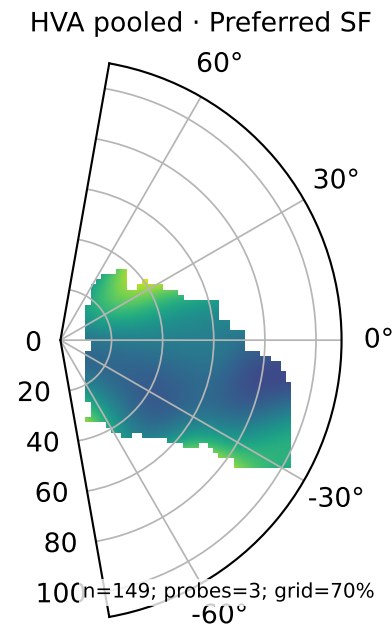

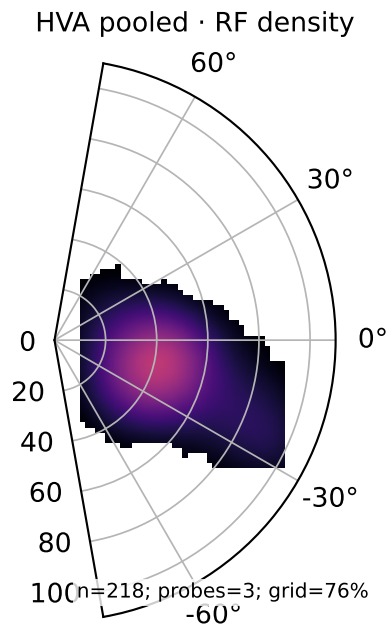

areas: AL+AM+PM

All probes are simultaneous within each stimulus block; RF, static-SF, and drifting-TF blocks are sequential.

Allen Brain Observatory 1.1 simultaneous visual-area map session 759883607 · mouse 740268986 · bandwidth 12°

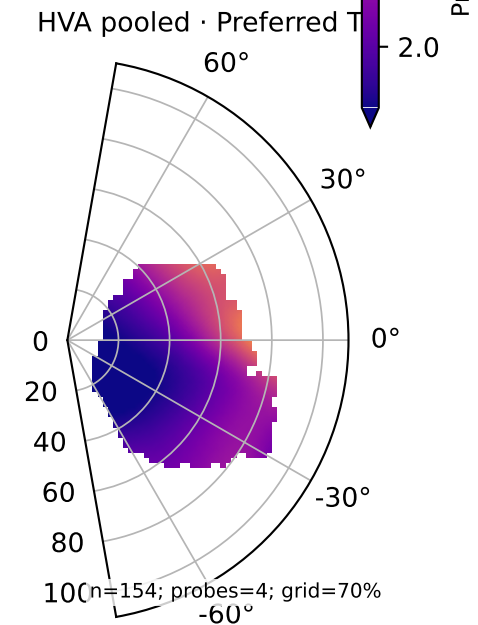

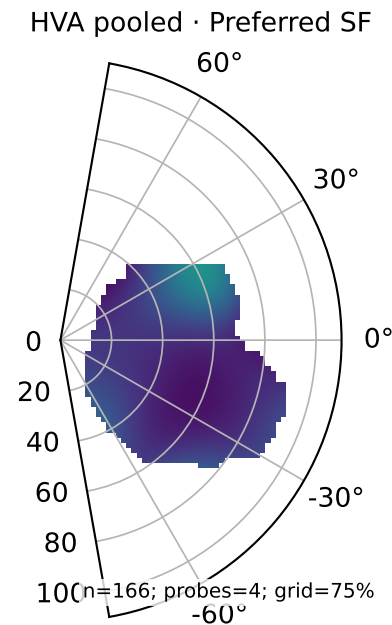

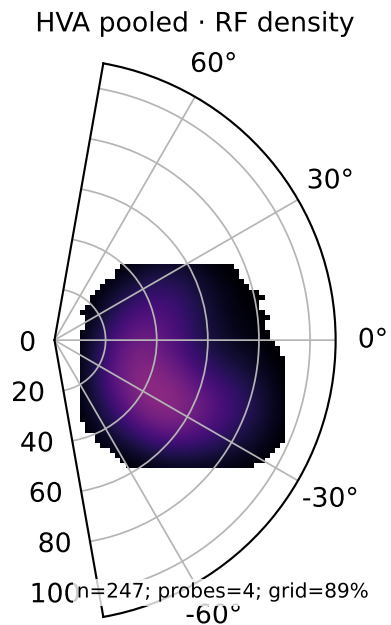

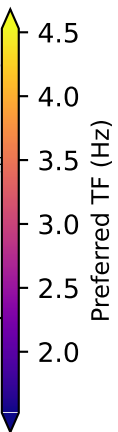

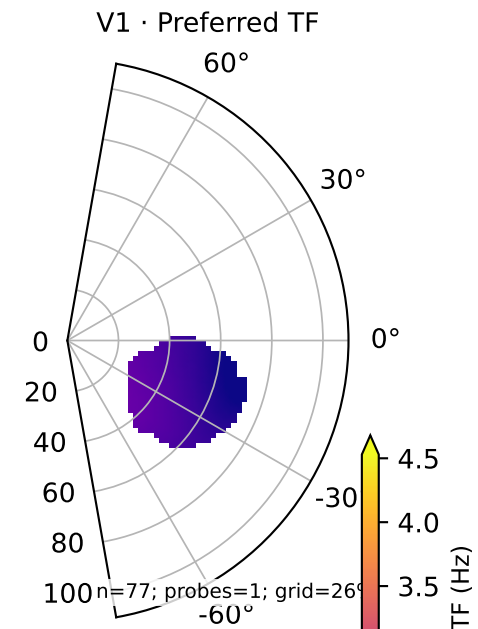

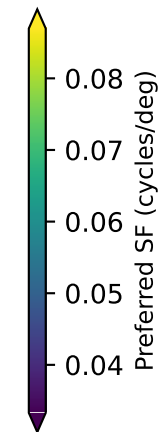

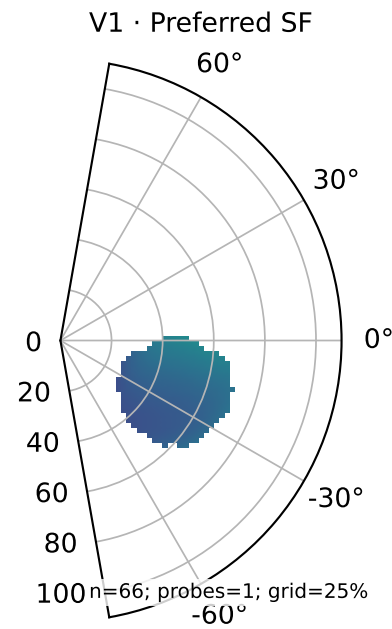

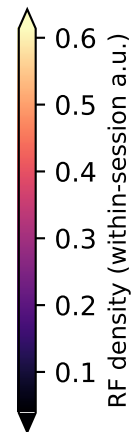

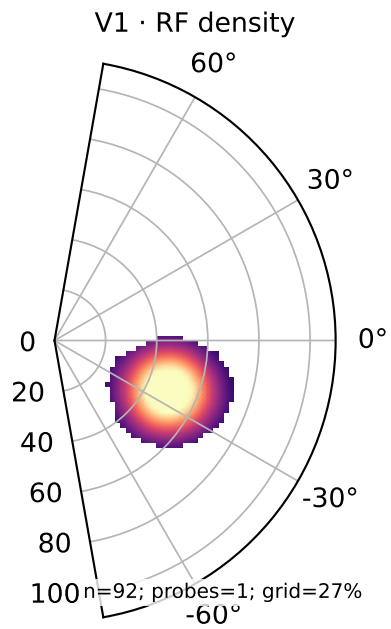

Preferred TF (Hz)

areas: AL+AM+PM

All probes are simultaneous within each stimulus block; RF, static-SF, and drifting-TF blocks are sequential.

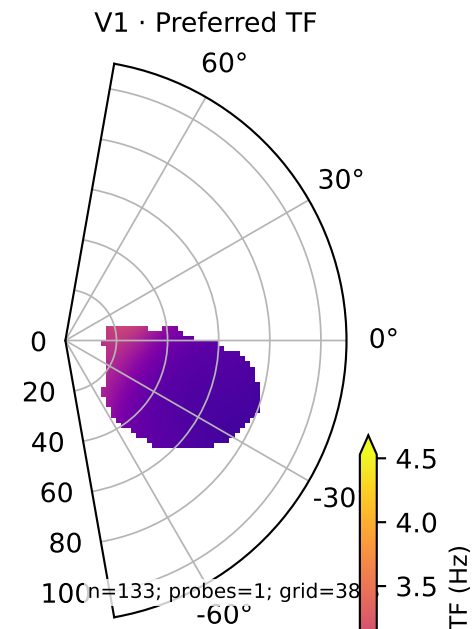

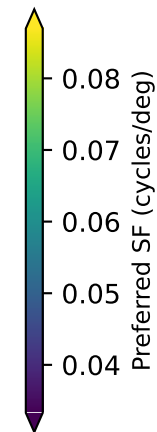

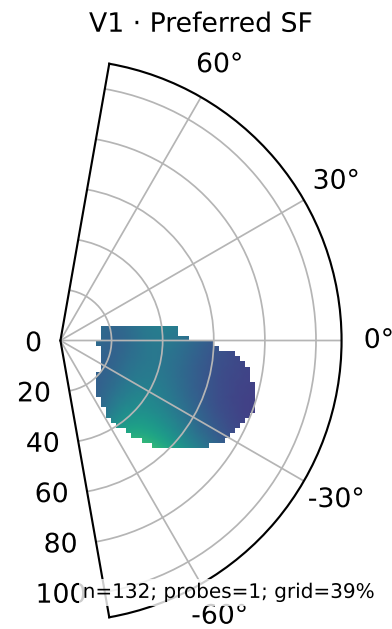

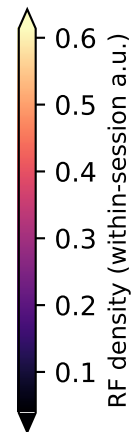

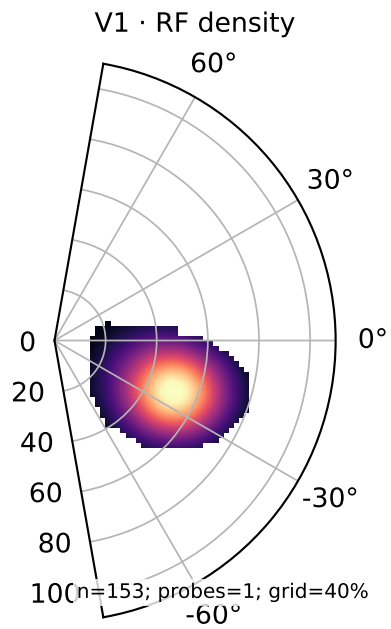

Allen Brain Observatory 1.1 simultaneous visual-area map session 760345702 · mouse 739783171 · bandwidth 12°

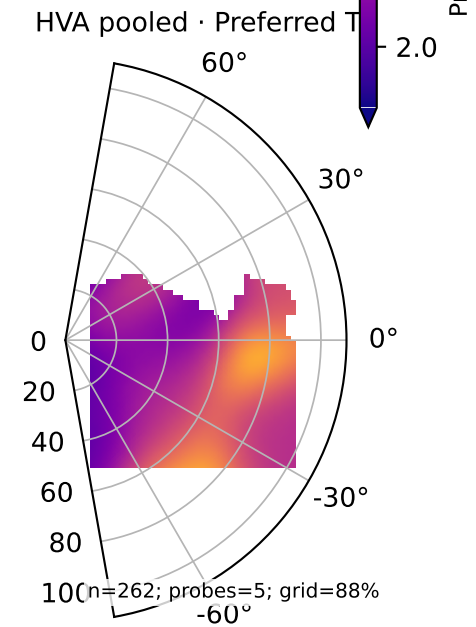

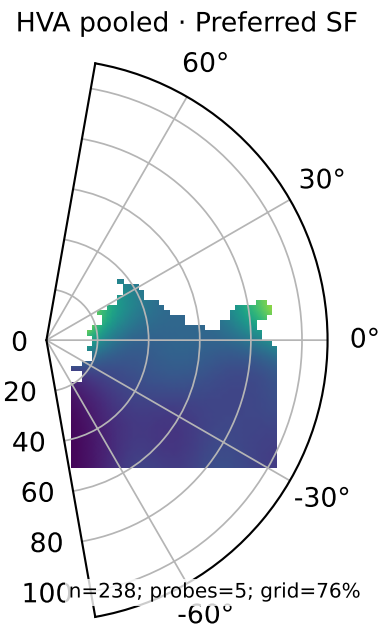

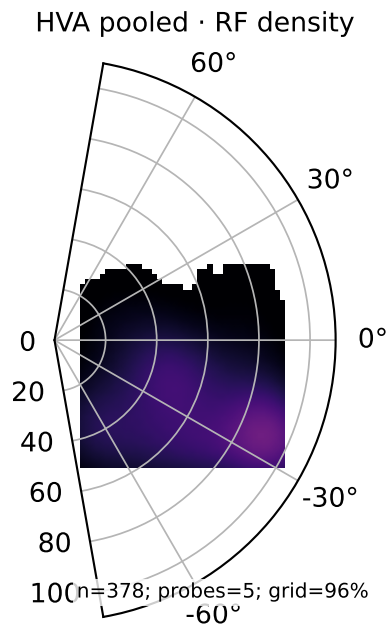

areas: AL+AM+LM+PM

All probes are simultaneous within each stimulus block; RF, static-SF, and drifting-TF blocks are sequential.

Allen Brain Observatory 1.1 simultaneous visual-area map session 760693773 · mouse 738651054 · bandwidth 12°

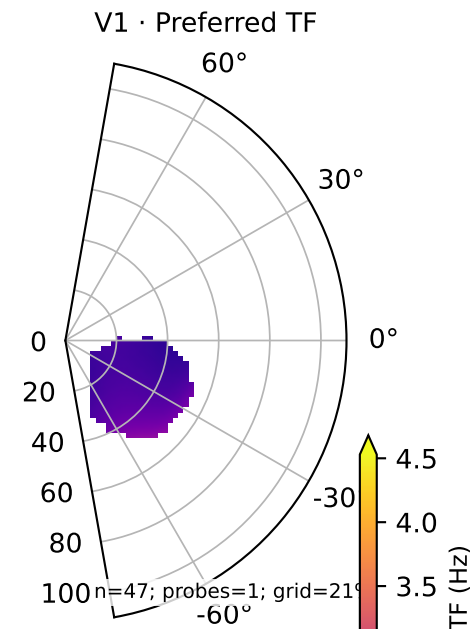

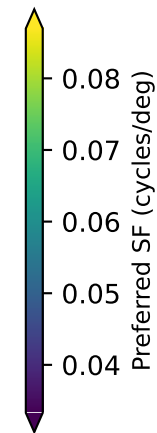

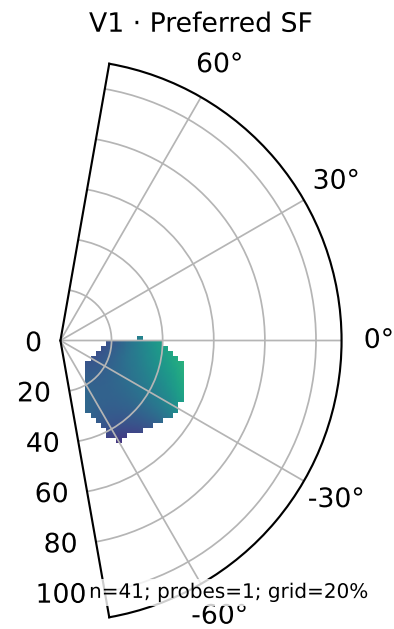

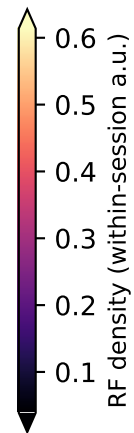

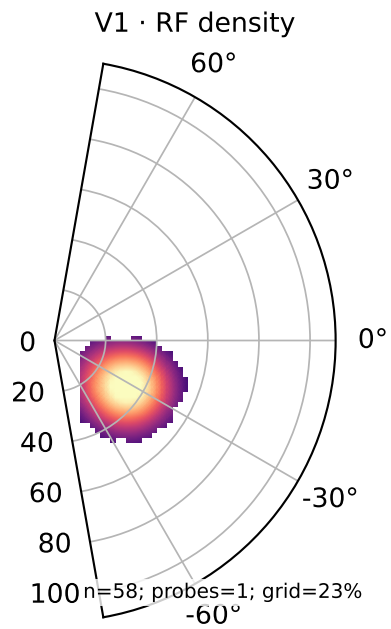

Preferred TF (Hz)

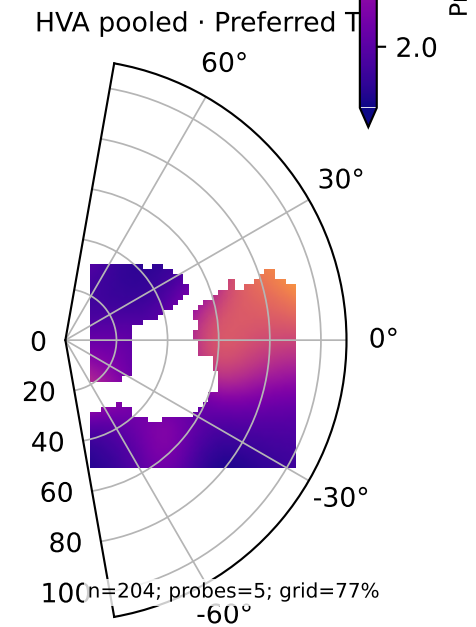

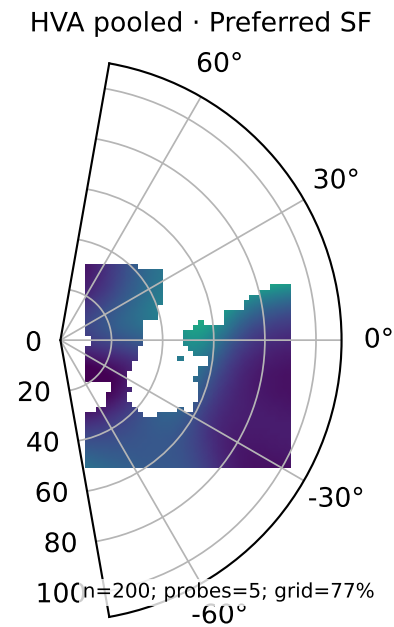

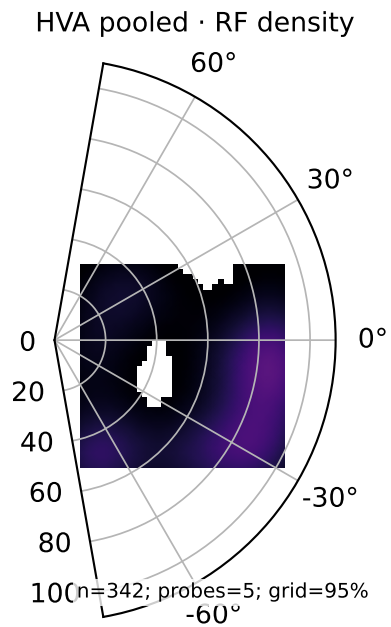

areas: AL+AM+PM+RL

All probes are simultaneous within each stimulus block; RF, static-SF, and drifting-TF blocks are sequential.

Allen Brain Observatory 1.1 simultaneous visual-area map session 761418226 · mouse 742714475 · bandwidth 12°

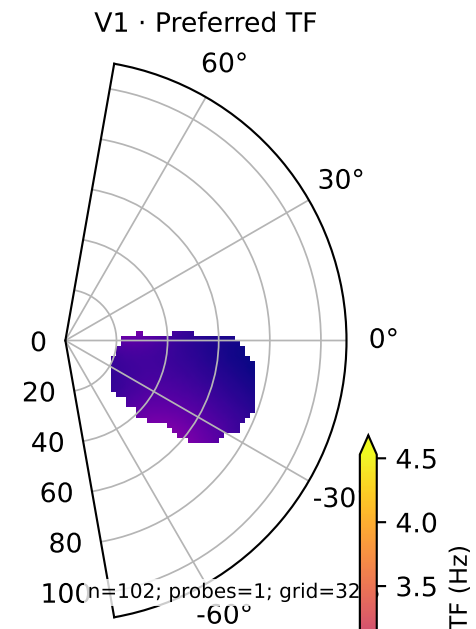

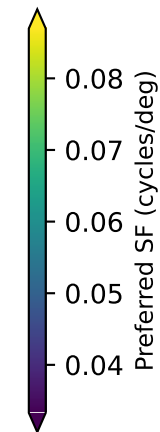

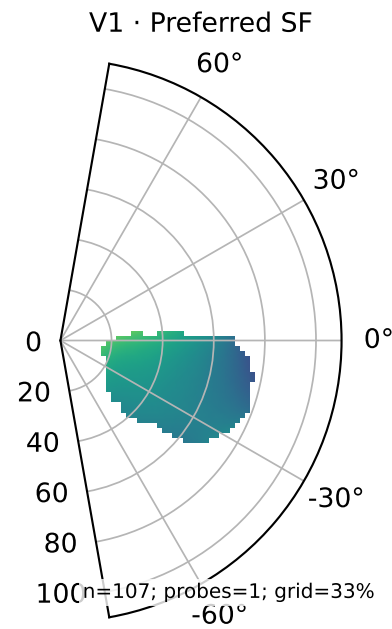

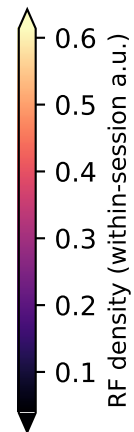

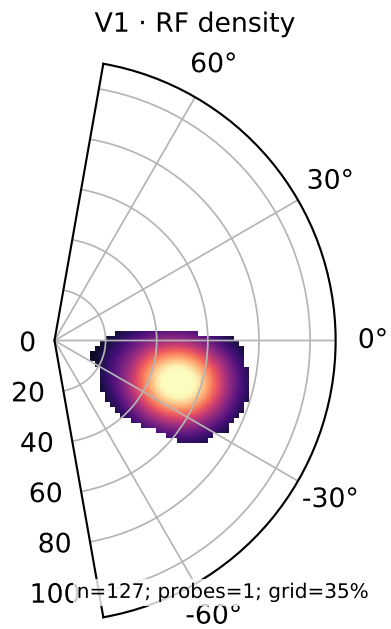

Preferred TF (Hz)

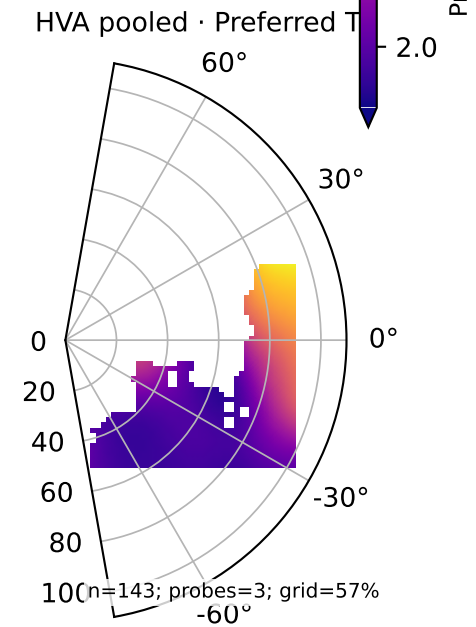

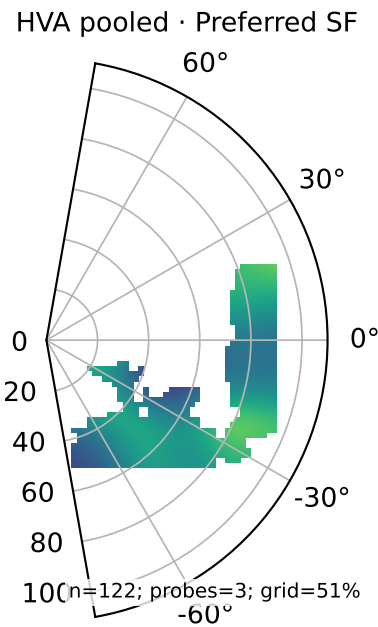

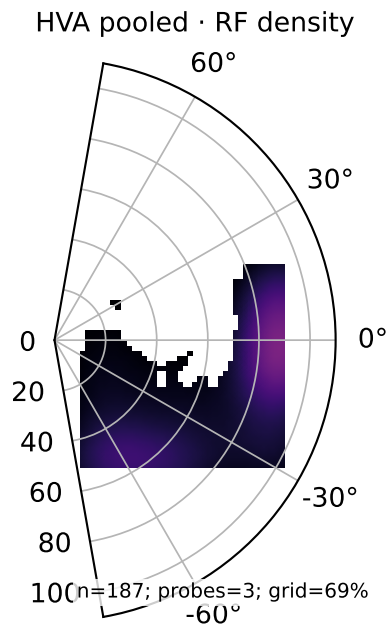

areas: AL+PM+RL

All probes are simultaneous within each stimulus block; RF, static-SF, and drifting-TF blocks are sequential.

Allen Brain Observatory 1.1 simultaneous visual-area map session 762120172 · mouse 745276236 · bandwidth 12°

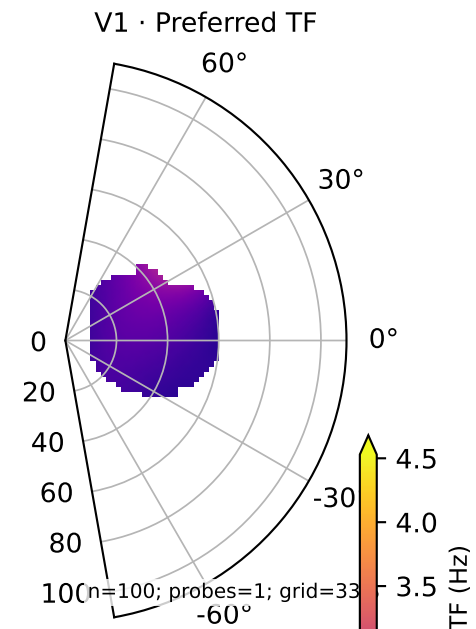

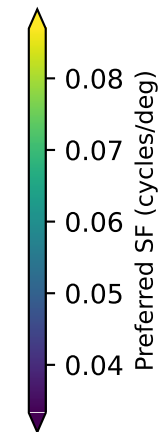

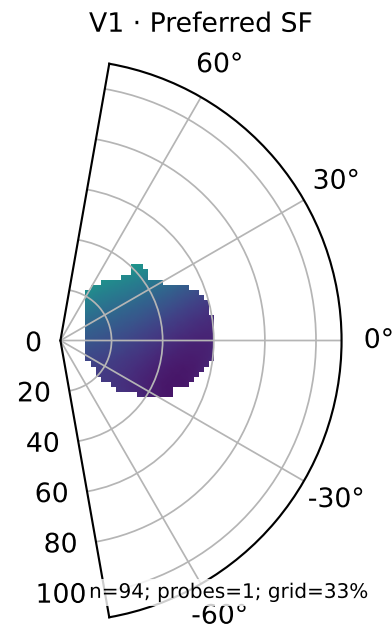

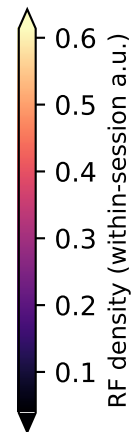

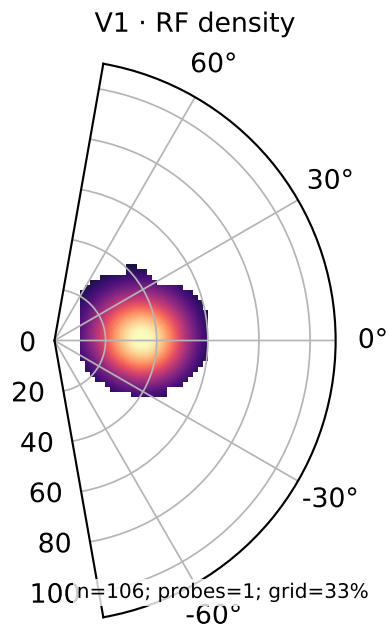

Preferred TF (Hz)

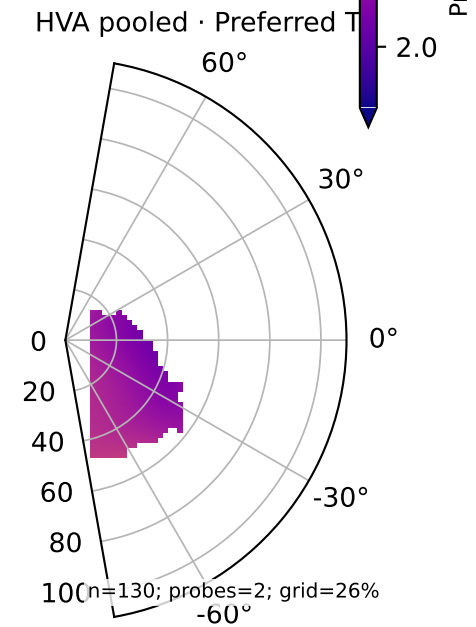

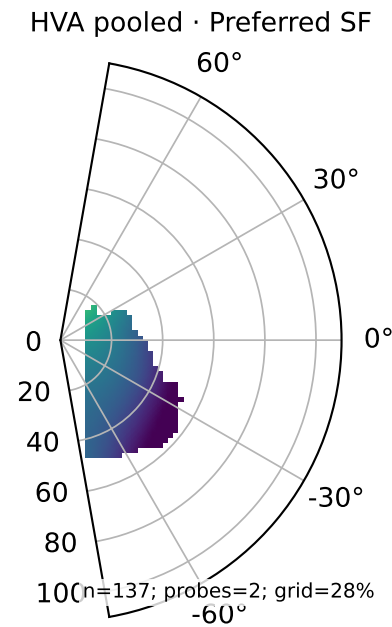

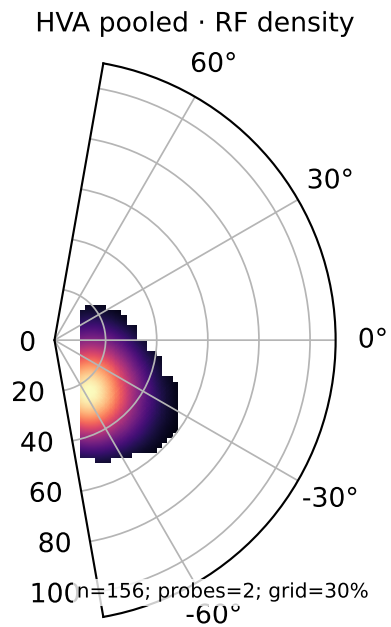

areas: AL+AM+LM

All probes are simultaneous within each stimulus block; RF, static-SF, and drifting-TF blocks are sequential.

Allen Brain Observatory 1.1 simultaneous visual-area map session 762602078 · mouse 744915204 · bandwidth 12°

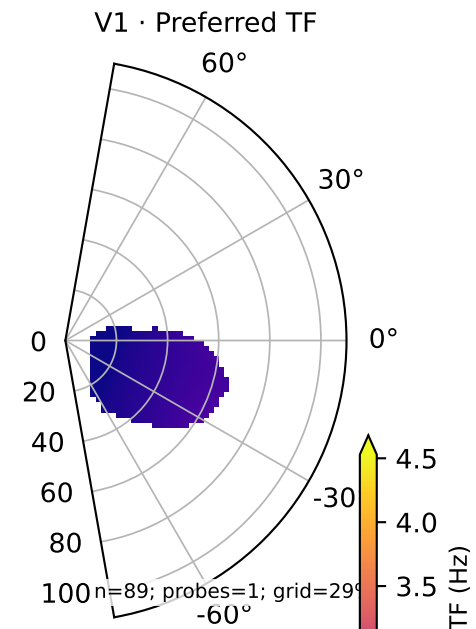

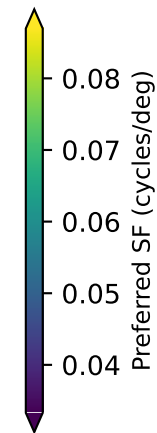

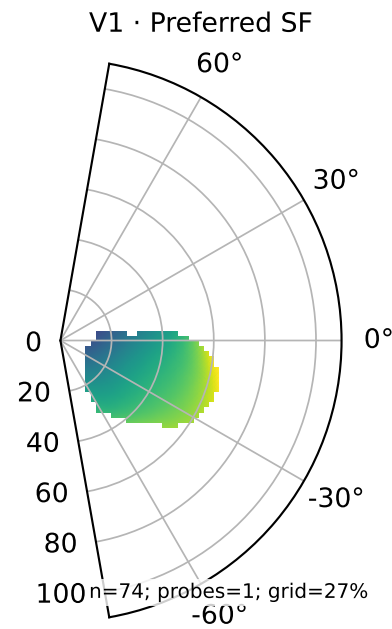

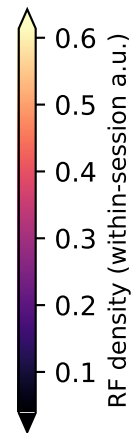

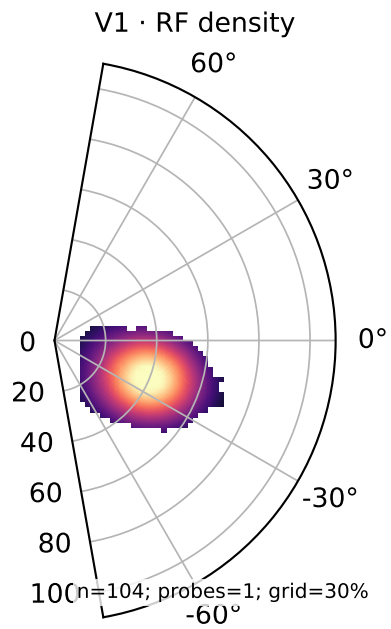

Preferred TF (Hz)

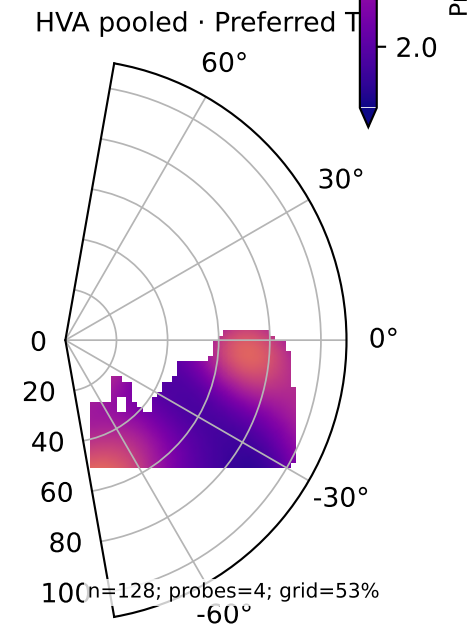

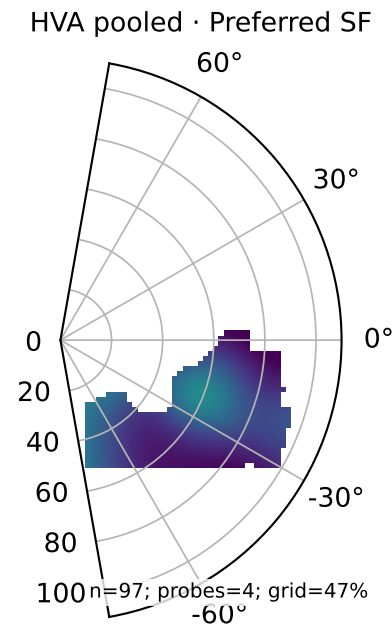

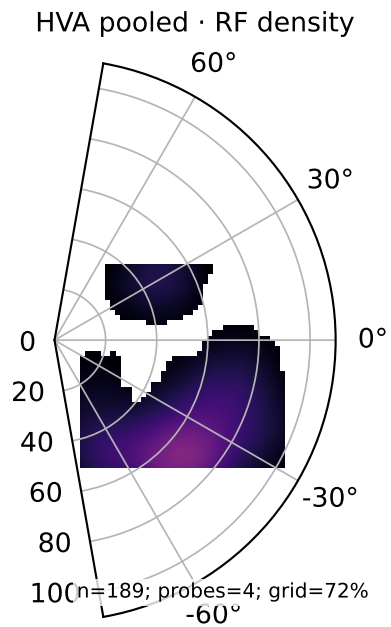

areas: AM+RL

All probes are simultaneous within each stimulus block; RF, static-SF, and drifting-TF blocks are sequential.

Allen Brain Observatory 1.1 simultaneous visual-area map session 763673393 · mouse 742602892 · bandwidth 12°

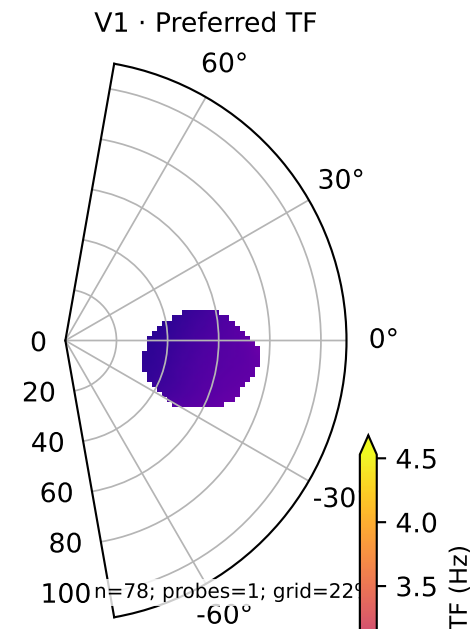

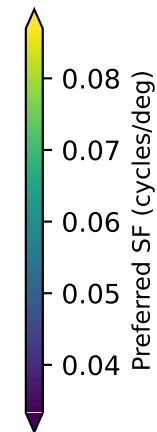

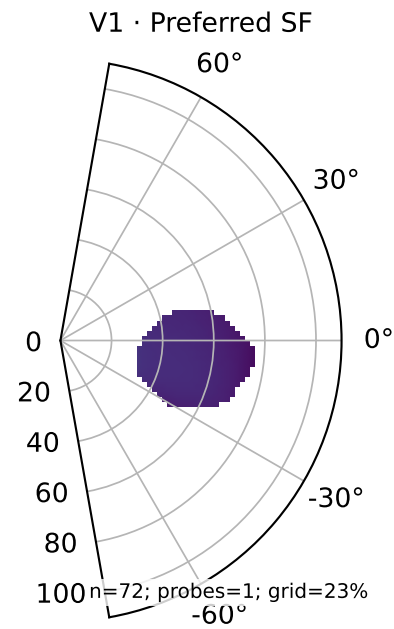

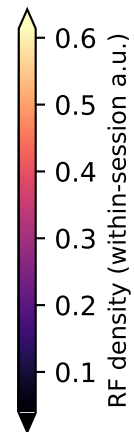

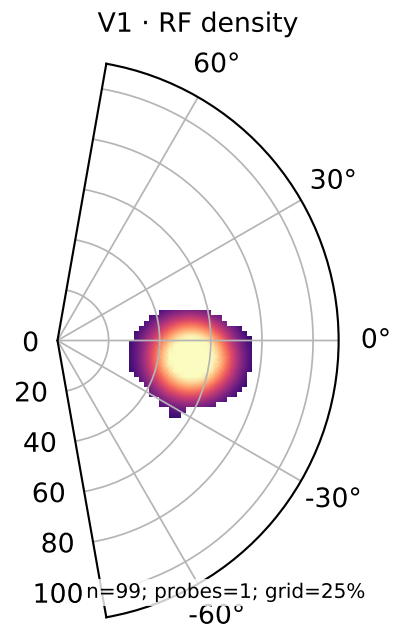

Preferred TF (Hz)

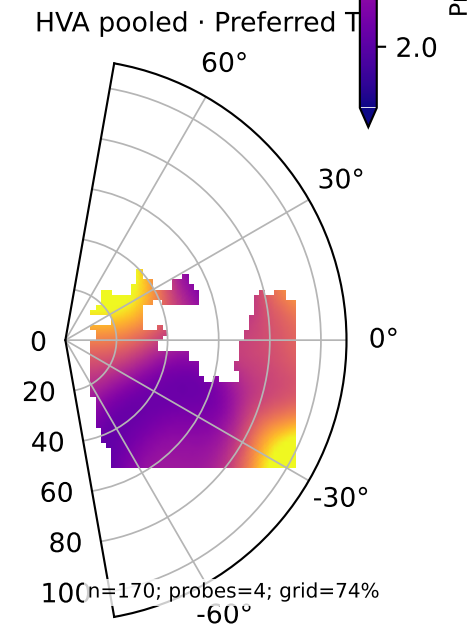

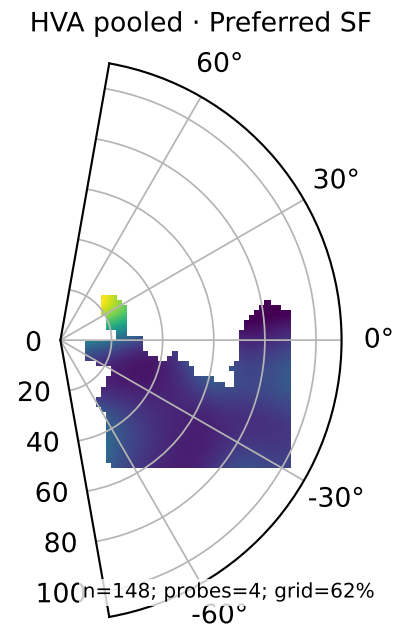

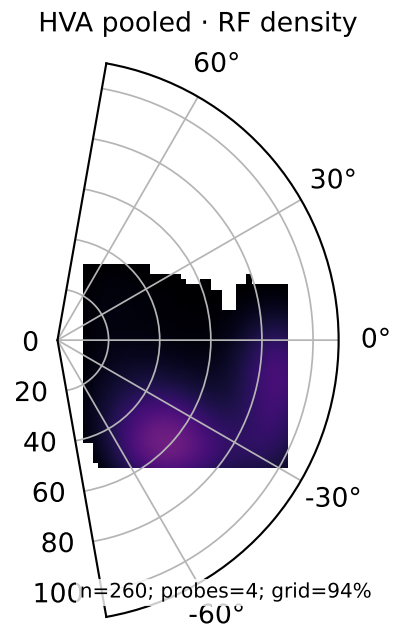

areas: AM+LM+RL

All probes are simultaneous within each stimulus block; RF, static-SF, and drifting-TF blocks are sequential.

Allen Brain Observatory 1.1 simultaneous visual-area map session 773418906 · mouse 757329624 · bandwidth 12°

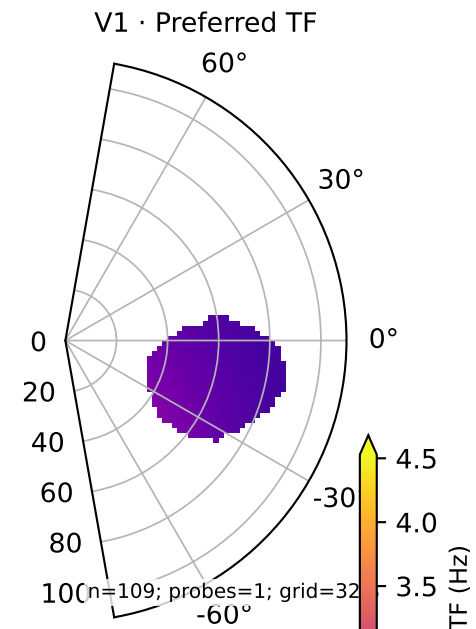

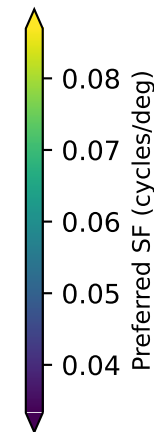

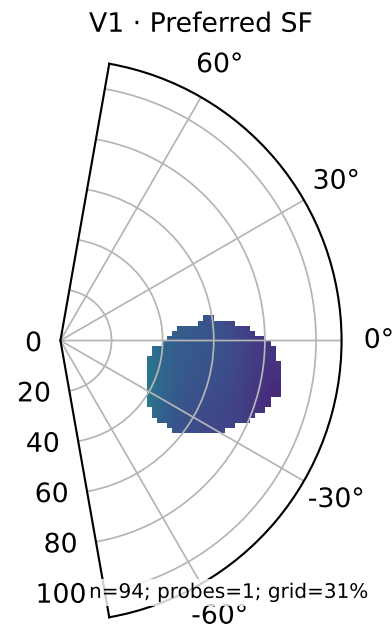

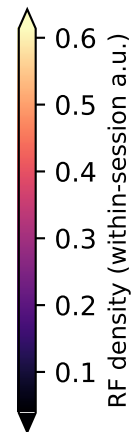

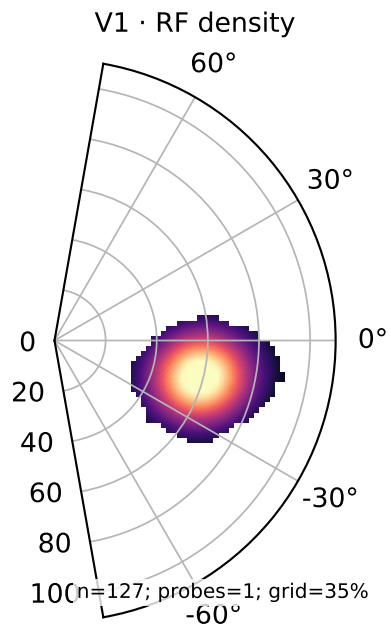

Preferred TF (Hz)

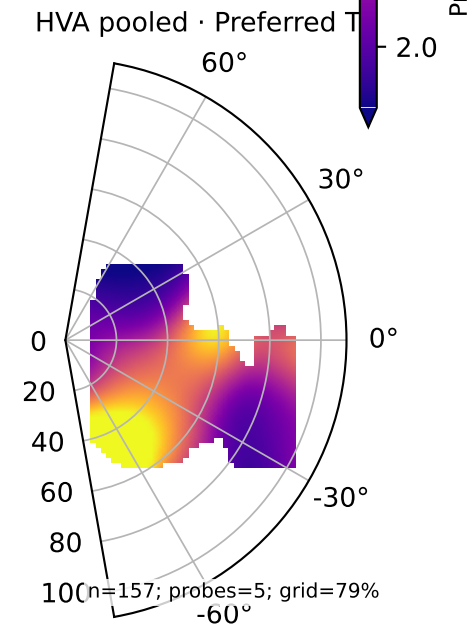

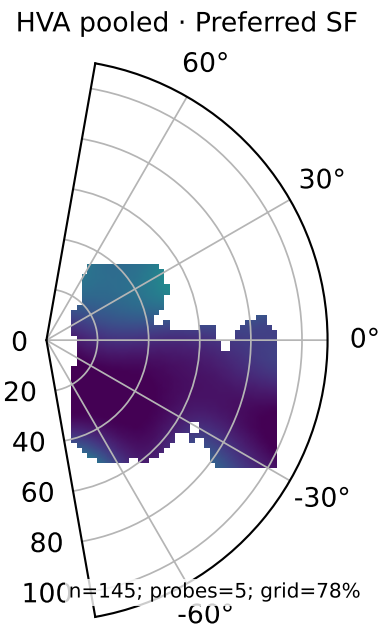

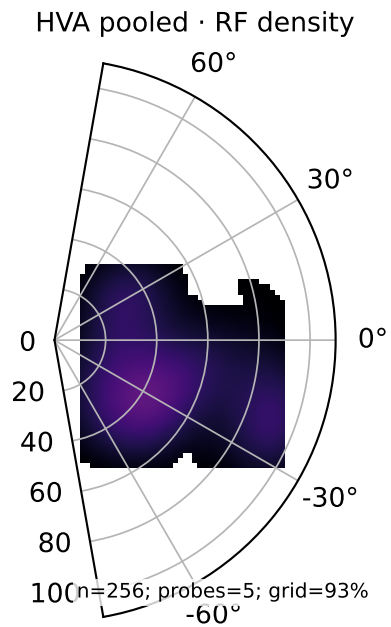

areas: AL+AM+RL

All probes are simultaneous within each stimulus block; RF, static-SF, and drifting-TF blocks are sequential.

Allen Brain Observatory 1.1 simultaneous visual-area map session 791319847 · mouse 769360779 · bandwidth 12°

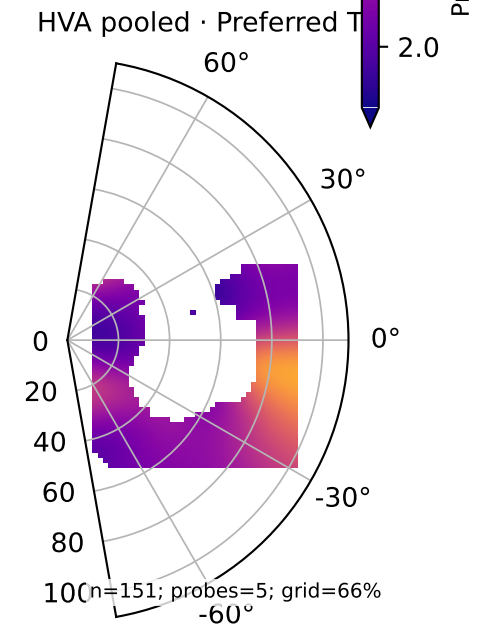

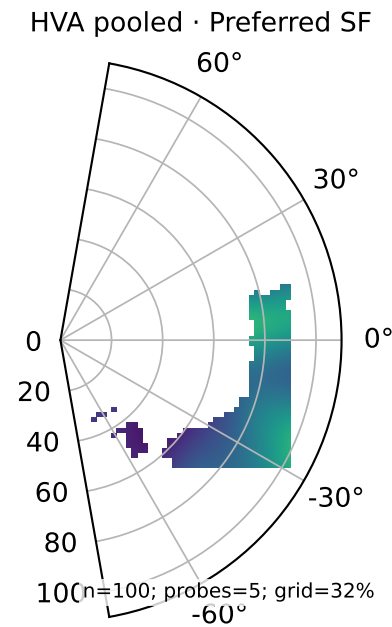

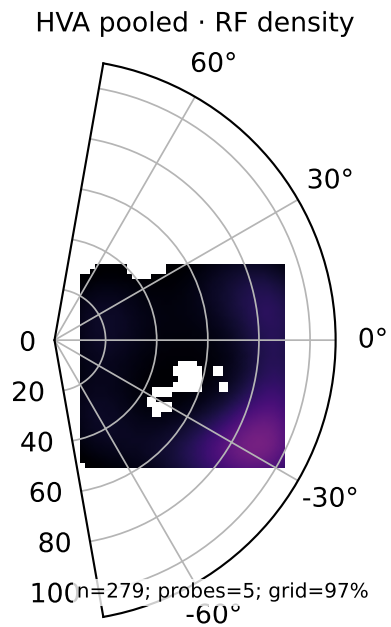

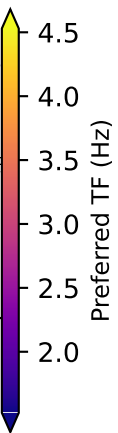

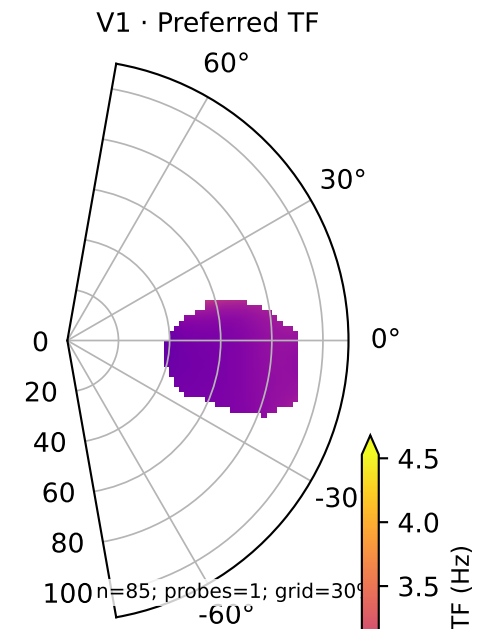

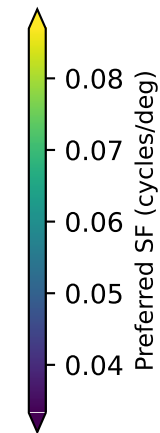

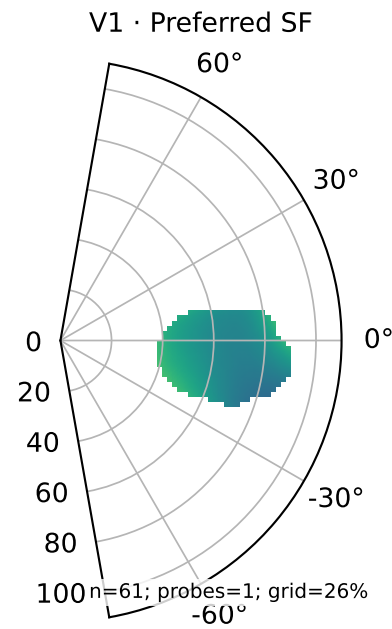

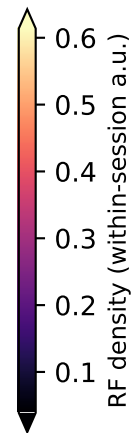

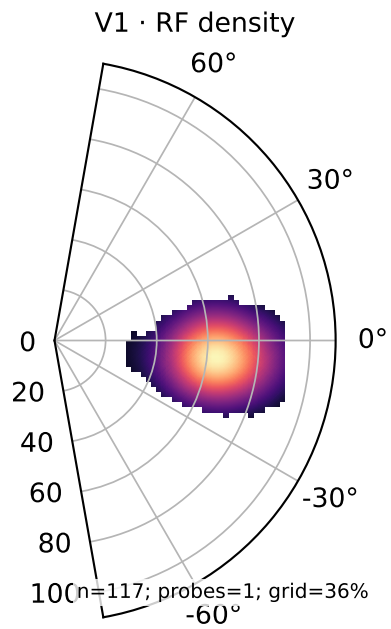

Preferred TF (Hz)

areas: AL+AM+LM+PM+RL

All probes are simultaneous within each stimulus block; RF, static-SF, and drifting-TF blocks are sequential.

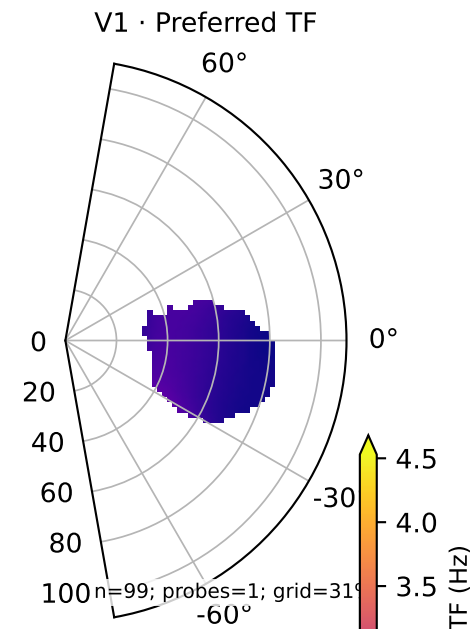

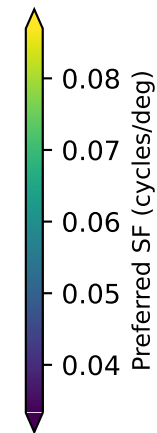

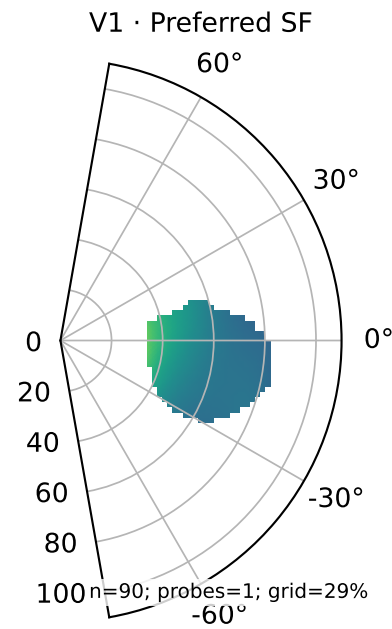

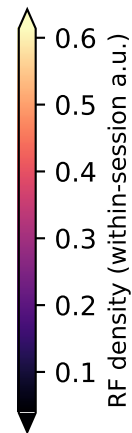

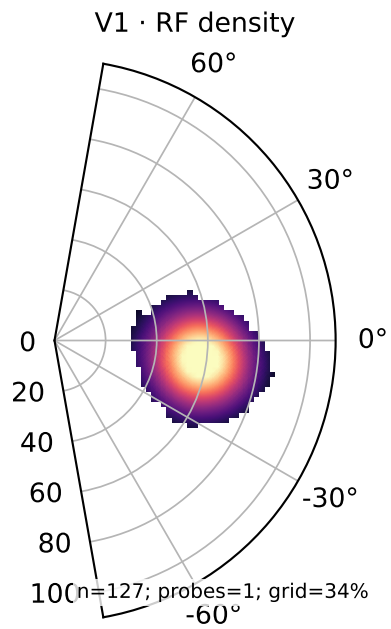

Allen Brain Observatory 1.1 simultaneous visual-area map session 797828357 · mouse 776061251 · bandwidth 12°

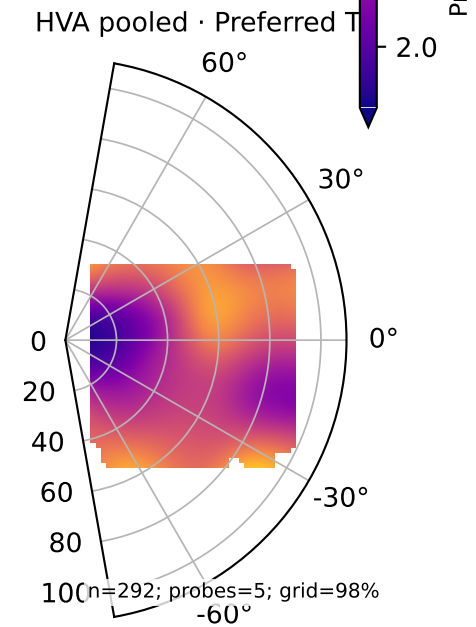

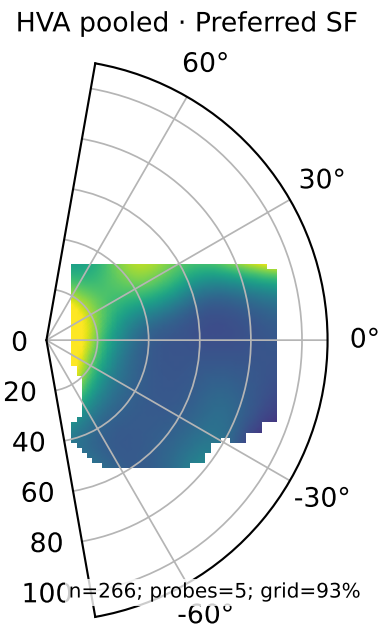

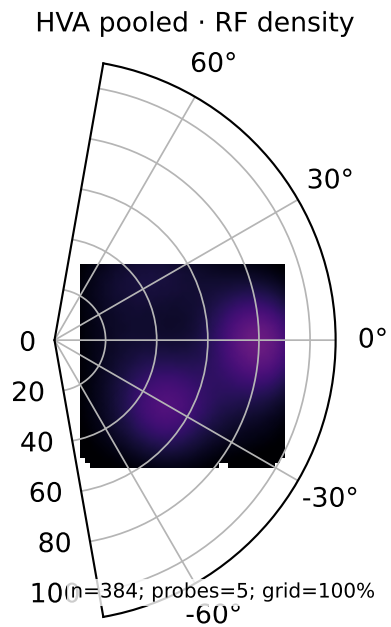

areas: AL+AM+LM+PM+RL

All probes are simultaneous within each stimulus block; RF, static-SF, and drifting-TF blocks are sequential.

Allen Brain Observatory 1.1 simultaneous visual-area map session 798911424 · mouse 775876828 · bandwidth 12°

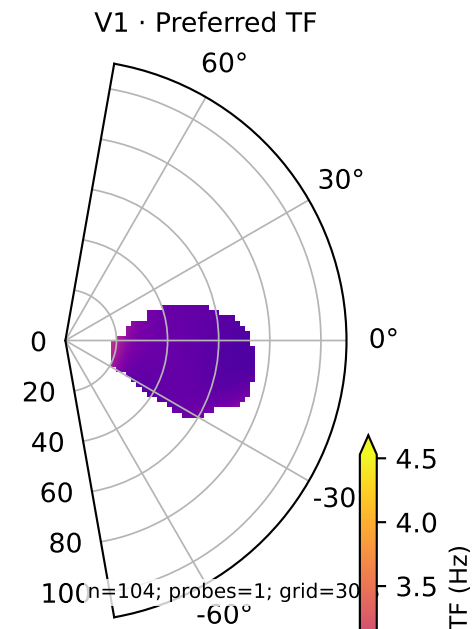

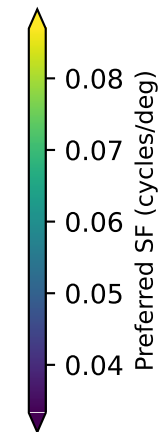

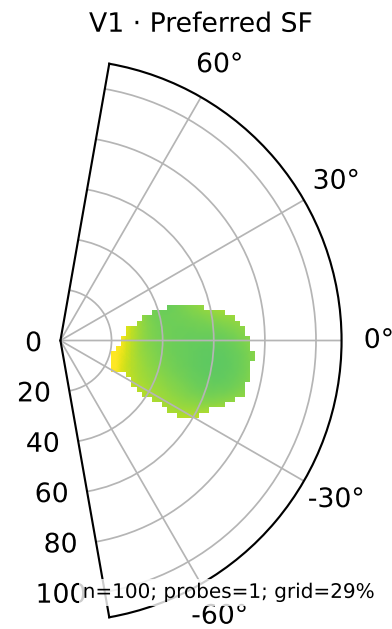

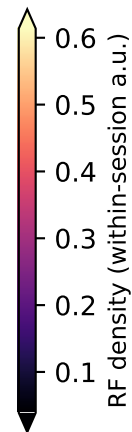

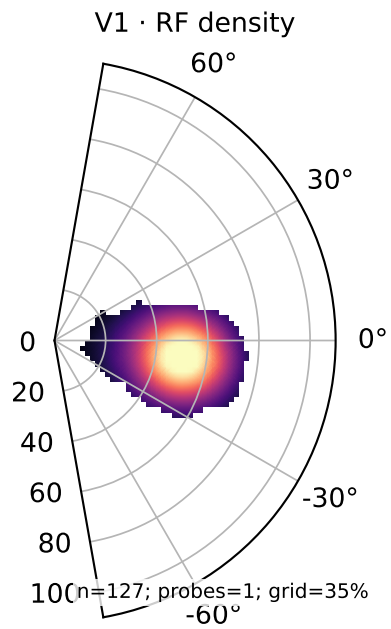

Preferred TF (Hz)

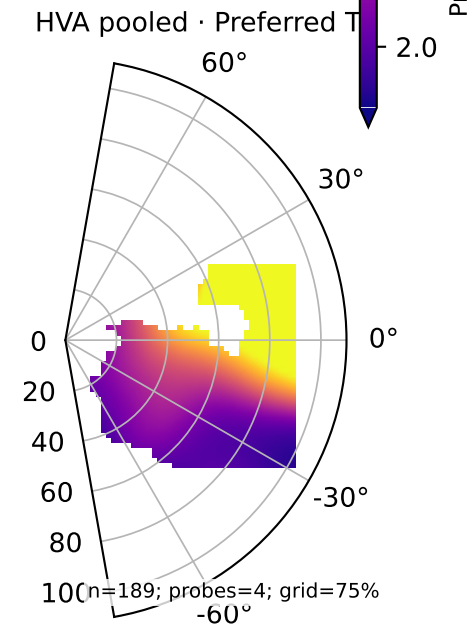

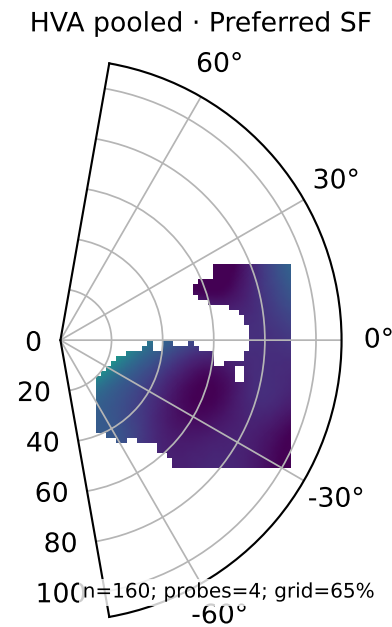

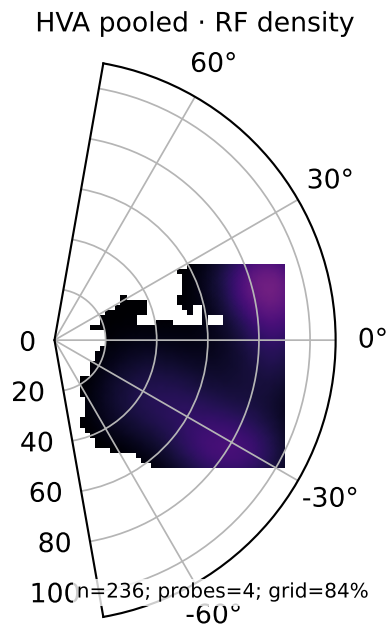

areas: AL+AM+LM+RL

All probes are simultaneous within each stimulus block; RF, static-SF, and drifting-TF blocks are sequential.

Allen Brain Observatory 1.1 simultaneous visual-area map session 799864342 · mouse 772616823 · bandwidth 12°

Preferred TF (Hz)

areas: AL+AM+LM+RL

All probes are simultaneous within each stimulus block; RF, static-SF, and drifting-TF blocks are sequential.
